NOTICE.

For many years I have been engaged collecting all the really good and rare plants, whether old or new. To these have been annually added all novelties of merit as they appear. The collection at this time of fine Greenhouse and Hothouse plants is one of the richest in the United States.

The prices at which some of the new plants are offered, may appear high to persons unacquainted with the importation of these articles. For such I have to pay high prices in Europe, adding freight, risks, &c., to justify which when first offered, the price should be proportionate—though I make it at the lowest possible rates, and as stock increases the price is reduced. Older and standard varieties are offered at my usual very moderate rates.

The description of the new plants are those of the parties who sent them out.

When selections are left to me, the very finest varieties will be sent, and the most vigorous plants.

After over thirty years' experience in packing and forwarding plants to distant countries, I flatter myself I can pack both economically and safely for any distance.

No charge is made for boxes or packing.

Plants, Bulbs, &c., at the single rate, will be mailed free; but when ordered by the dozen or hundred, the single price or a sufficient amount must be remitted to cover postage. On their reception they should be potted and placed in a frame or green-house to recover the effects of the journey. To Florists and Nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me I will forward in such a way as I deem best for the purchaser.

In all orders by express, good plants are added in proportion to the value of the order or distance. Persons getting up clubs will be liberally rewarded with choice plants in proportion to the amount remitted.

Orders intended for mailing should be accompanied with a remittance; not less than $1.00 worth sent in each order.

I decline sending goods long distances C. O. D.

In making out orders, keep plants and seeds separate—it saves us much time at our busy season.

Write your name plainly; give post-office, county and State, whenever you write, no matter how frequently.

In all letters of inquiry, it is well to leave a blank space between each question for an answer; this facilitates a reply in the busy season, when my correspondence is very heavy.

Please use the order sheet, or in a list apart from the body of the letter. This much facilitates business and prevents errors. In making out orders please affix prices, that I may know the size of plants required.

Customers who fail to receive a catalogue in due time, will please inform us of the same, that a copy may be sent, as catalogues are frequently lost in the mails.

This catalogue annuls prices in all former issues.

JOHN SAUL.

January, 1888.
NEW ROSES.

*Earl of Dufferin, (H. P.), the finest new rose of this class; flowers velvety crimson, shaded with maroon, large, very full and finely formed; a continuous bloomer of vigorous and bushy habit. Ready in April. Each. 1.00

*Lady Helen Stewart, (H. P.), bright crimson scarlet, petals smooth and of great substance, highly perfumed; a strong grower and continuous bloomer. Ready in April. Each. 1.00

*Miss Ethel Brownlow, (Tea), flowers bright salmon-pink, shaded with yellow at base of petals; large, of good form, opening well, growth robust; shows its flowers to great advantage, being held erect on a sturdy upright stem. Ready in April. 5 inch pots, 50 cents; 8 inch pots, 1.00.

*Princess Beatrice, (Tea), flowers pale yellow with golden yellow centre, large and full, growth vigorous; a very valuable new rose. 3 inch pots, 30 cents; 5 inch pots, 1.00.

*The Meteor, (Hybrid Tea), “this is a remarkably dark rich velvety crimson, without the least tint suggestive of purple. It is a constant and good bloomer, very vigorous and healthy in growth, with no tendency to mildew. No rose ever before offered retains its color as does the Meteor, some blooms during the past winter having kept for one week without any visible change in color”...

The Pelargoniums now offered are not only the greatest novelties, but the most beautiful of the English and Continental collections.

*Pelargonium, Alexandre de Napadieuwicz, a fine flower of a salmon-carmine color, margined with white; upper petals blotched with maroon; large white centre. Each. 40.

*Carnaval, a grand flower, white, picoteed with carmine, black blotches with enormous trusses.

*Cascade, pure white, striped, a beautiful double flower.

*Denise, a large and very beautiful double white flower; very fine.

*Duke of Albany, deep rich crimson-maroon, margined with rosy lake; light centre surrounded with violet-rose shading; all the petals beautifully undulated and fringed; extremely showy and attractive.

*Duchess of Albany, a profusion of fine trusses of beautifully fringed flowers, of a soft purplish violet color, slightly shaded stems and margined with lavender-rose; the upper petals blotched and feathered maroon.

*Glorie de Tours, rich orange red, dark blotch, a beautiful showy flower.

*Rose et Blanche, large, grand flowers, white and rose, distinct and beautiful.

*Pelargonium, Karl Klein, a splendid variety, producing very bright red flowers darkly spotted; extremely showy.

*Miss Lily Cornwall, a very lovely flower; crimson-scarlet petals shaded with rosy purple and edged with white, light centre.

*Mad. Page-Carpantier, a very beautiful white flower of fine habit and free flowering; semi-double.

*Prince of Teck, rich deep crimson, shaded with violet; upper petals blotched and feathered with dark blackish maroon; centre shaded with violet.

*Princess Beatrice, upper petals crimson-lake, blotched with maroon and margined with white, under petals blush white; a large and full flower, the petals being beautifully undulated and fringed.

*Sultan, carmine-lake, the upper petals maroon with maroon; light centre, shaded with soft violet-rose; all the petals slightly undulated; a very pretty flower.

12 beautiful varieties for $4.00.

NEW PELARGONIUMS.

Pelargonium, Arbaces, a very attractive flower of a bright rosy purple color, with light margin; the upper petals blotched and feathered with dark crimson.

Belle de Jour (Lem.), this beautiful Pelargonium has flowers of the purest white, semi-double, produced on stiff, erect stems most profusely, fine habit. A grand plant.

Bizarre, beautiful rose, carmine striped with white, upper petals spotted, beautiful form.

Cymba, upper petals dark crimson, surrounded with bright crimson and edged with rose; under petals rose, blotched and feathered with crimson; light centre; a fine, large, well-formed flower.

Pelargonium, Figaro, carmine-rose striped with white, upper petals striped dark purple.

Feu d'Artifice, rosy carmine striped with white, upper petals striped maroon and carmine.

Genl. de Negrier, beautiful violet, red, deep maroon blotch, a lovely flower.

G. Rosain, rose marbled with carmine and orange, centre white, beautiful.

Jules Jacquemart (Lem.), truss enormous, with large, finely-formed flowers, color a lovely bright vermilion, with a delicate centre; petals nicely undulated, and profuse bloomer.

Jessica, upper petals dark maroon, surrounded with crimson and margined with rose; under petals rosy pink, spotted dark crimson.

Each.
NEW REGAL PELARGONIUMS.

This name is applied to that magnificient group of Pelargoniums the flowers of which are of large size, very rich and showy; a few are double, and although the others are not really double, yet from their fulness of form and the extra number of petals, they have the appearance of being so.

Pelargonium, Beauty of Oxton, the upper petals are of a very rich maroon, darkly blotched; under petals very dark crimson, shaded with maroon; light centre; all the petals margined with white and beautifully fringed.

Duchess of Bedford, one of the most useful, its blushed wine, of the purest white, prettily fringed, with a feathered spot of delicate rose in the upper petals. Its habit is dwarf and compact.

Dr. Mantell, a splendid variety, are large and in great profusion; it is semi-double, the upper petals having large black blotches in the centre, with a narrow margin of rich crimson, the lower petals margined with a smaller blotch.

Elegantissimum, a beautiful variety, with large crisp semi-double flowers, of a rich vermilion color, all the petals broadly margined with white.

Madame Evard, a most distinct variety; the flowers are very full, with beautiful crisp petals of an exceedingly bright purplish crimson color, richly spotted with dark maroon.

Pelargonium, Empress of India, white penciled with violet-rose, petals beautifully un-dulated and frilled; very beautiful.

Pelargonium, Pension, rich deep crimson; the upper petals marked with velvety maroon; large, fine, velvety habit.

Pere Seraphin, fine rose, blotched with cerise; perpetual bloomer.

Petraque et Laure (Lem.), color lilac-mauve, beautifully veined, petals marked with maroon; large, beautifully-formed; trusses freely produced. Very distinct, a lovely flower.

Prince of Teck (Lem.), rich crimson, tinted with violet, petals veined and spotted with maroon; large umbels, compact habit and beautiful under variety.

Romeo et Juliette, rose ground, striped and spotted with orange and carmine; a showy and beautiful flower.

Royalty, a choice large and bountiful flowers immense; flowers pure white, beautifully feathered with maroon; a very fine variety.

Rusticana, rose, shaded maroon; under petals rich crimson; light centre, shaded with violet.

Sister of Mercy, rich crimson, with a deep maroon blotch. A lovely flower.

Splendit, upper petals maroon, surrounded with scarlet and edged with pink; under petals white.

Statesman, rich rose, upper petals maroon, bordered with rose, white centre.

Zoe Badinier, maroon blotches and spots, centre with a gorgeous maroon edge.

Price: 12 beautiful varieties for $4.00.

PELARGONIUMS.—New Varieties, Fringed, Striped, and Show Flowers.

Pelargonium, Amazon, large, beautiful form; color rich carmine, with a white centre; a showy and lovely flower.

Chanzly.

De Luxe, rose-carmine, with centre, deep maroon blotch; very fine.

Edward Perkins, rich scarlet, deep blotch; an exceedingly vivid and beautiful flower.

Flambeau, rich crimson, in upper petals, shaded with cerise; a most effective variety.

Gidour, upper petals deep maroon, surrounded with fleshy crimson, and margined with deep rose; under petals bright rose pink, spotted with dark crimson; a splendid flower.

Pelargonium, Improved Triomphi de St. Maude, very vigorous, with large trusses of rich crimson flowers, dark blotch; a fine market variety.

Jordania, rich rose-carmine, bordered with white, white centre; maroon blotches; a beautiful variety.

Lucie Lemoline, a chaste and beautiful new flower, a maroon blotch; perfection for form and shape; fine, compact, vigorous habit.

Malcom, upper petals rosy pink, blotched with under petals soft rose pink, marked with deep crimson.

Madile, Nevada.
OF NEW, RARE AND BEAUTIFUL PLANTS.

Each.

Pelargonium, Mrs. Potten, this is a charming variety; habit good and compact, trusses large, finely formed; color pure white, with very dark blotches. 40

Pallas. 40

Princess of Wales, very handsome, with elegant frilled petal margins, trusses large, size, ground color pure white, each petal alike marked with a rich dark violet crimson-scarlet margined blotch. 40

Miss Middlemiss, a very free and compact; large umbels of finely formed flowers; color violet-maroon, bordered with white; under petals deep crimson with edge, with center, shaded with violet, the petals slightly fringed; a very free and pretty variety. 40

Whigs et Scribes (Lem.). A fine and effective, flowers large, trusses immense; very free and bloom brightly. An attractive and beautiful flower. 40

Wm. Pfister's Rosea-Mutabilis. 40

Nemesis, a graceful habit; leaves large, trusses large, petals white, with a rich crimson margined blotch; center white; beautiful. 40

Panorama, violet, dark blotch. 40

Queen Victoria, the leaves of this variety have peculiarly crisp petal tips of a rich vermilion color, margined with pure white, the upper ones blended with maroon; extra attractive. 50

Smith's Seeding, deep red, heavily spotted, very attractive. 40

Each.

Pelargonium, Rosea-Mutabilis. 40

Sabine, upper petals dark crimson-maroon, edged with bright crimson; under petals rose crimson, blotched with maroon. 40

Scribe, habit free and compact; large umbels of finely formed flowers; color violet-maroon, bordered with white. 40

Ukrain, upper petals bright crimson, blotched with maroon and edged with white, under petals deep crimson with edge, white center, shaded with violet, the petals slightly fringed; a very free and pretty variety. 40

Whigs et Scribes (Lem.). A fine and effective, flowers large, trusses immense; very free and bloom brightly. An attractive and beautiful flower. 40

Wm. Pfister's Rosea-Mutabilis. 40

Waldeck-Rosseau, white center, petals carmine-violet, large fine trusses, extra beautiful. 40

Zenith, rose camel, white center, a lovely flower. 40

Price: 12 beautiful varieties for $4.00.

DECORATIVE PELARGONIUMS.

The varieties here offered are largely grown for Covent Garden Market, London.

Pelargonium, F. A. Dickson, upper petals bright cerise; lower petals carmine, a very fine variety. 40

Charles Dickens. 40

Lady Isabel, a beautiful maroon, with scarlet and white petals all round the flower. 40

Mabel, dark maroon top, narrow edge, a heavily painted flower, fine free habit and bloomer. 40

Miss Maller, a fine white-feathered liliace, dwarf and free. 40

Pelargonium, Mrs. H. Buck. 40

Meremir, a semidouble, perfect bloom and bloomer, rose crimson, light center, purple blotch; fine pot plant. 40

Miss Weatherill, rose crimson, suffused with orange, white center, small blotch, beautiful pure white; fine free bloomer. 40

Scarlet Gem, very bright crimson-scarlet, with light margin; fine free habit; early and profuse bloomer. 40

NEW DOUBLE GERANIUMS.

The following collection comprises the finest novelties in double and semi-double Geraniums.

Geranium, Abricote, "a fine, semi-double apricot-colored flower; very circular and of good outline; medium sized trusses; excellent... 25

Aimee Goubin, "violet crimson, shaded with scarlet; very large florets of superb form; immense trusses, good and distinct habit; extra fine... 25

Bonne de Lamberterie, color a tender clear rose, upper petals spotted white, good truss; a nice flower... 25

Baroness Boucheron, rich purple, large trusses, perfect bloom, extra fine... 25

Centaur, "one of the largest trusses of any of the double-pinks, fine form, good compact habit; a grand bedding variety." 25

C. A. Cochrane, "a very free and well colored variety; very effective and novel colored variety... 25

Cleopatre, florets tinted and shaded with salmon, centre salmon-orange; very dwarf and exceedingly free flowering; a decidedly pretty variety... 25

Esperance, clear salmon, trusses large and finely formed; good habit... 25

Fratelli Ferraiu, clear bright salmon, fine trusses; very distinct... 25

Gaspard Boucheron, rich purple, trusses large and finely formed; good habit... 25

Gen'l Courcy, salmon red, flaked with white, fine truss; a splendid bedder... 25

Gertrude Ferraiu, a big double, large, blooming freely and profusely... 25

Glorie de France, very large double flowers, center dark salmon, shading to whitish rose; extra large trusses... 25

Golden Dawn, "a rich gold orange shade of the most brilliant hue;" flowers of largest size, perfect shape, large trusses... 25

Jules Lartigue, flowers semi-double; upper petals shaded carmine, base of petals violet-rose, moderate in growth, with a free blooming habit... 25

Jules Lartigue, flowers semi-double; upper petals shaded carmine, base of petals violet-rose, moderate in growth, with a free blooming habit... 25

Geranium, Le 14 Juillet, white, tinted with salmon, a very compact dwarf habit; extra... 20

Le Cid, brilliant crimson, large, finely formed trusses, very compact habit, a magnificent bedder... 25

Le Prophet, a magnificent double scarlet Geranium, color most brilliant, fine truss, vigorous compact habit; grand for bedding or pot culture... 25

Le Cygne, a pure white, with perfect double flowers... 25

Metoree, flowers semi-double, rich vermilion orange, fine truss and good habit... 25

M. Fabre, a crimson scarlet; extra... 25

Marie de Binos. A rich glowing crimson-scarlet, large semi-double, center carmine color; center of petals shaded rose-lilace; quite distinct and pretty... 25

M. David, bright rose-carmine, marked white on the upper petals; a very pretty and unique semi-double Geranium... 25

M. Lunden, fine rose, spotted with white, good habit; free... 25

Mad. Hoste, trusses immense, of finest form, color glowing salmon, fine, vigorous, compact habit; a grand variety... 25

Perfection, flowers red, shaded with salmon, center rose, finely shaped; extra... 25

Princesse d'Anhalt, pure white, large, fine trusses; a beautiful variety... 25

Re Umberto, a double, colored deep salmon, marked with a tinge of yellow-color of New Guinea... 25

Sergeant Bobillot, fine trusses, of beautiful rich purple-carmine color, fine free habit... 30

Sergeant Blandon, semi-double, maroon, marked with salmon, free bloomer, splendid bedder... 20

Samos, crimson-amaranth, center light, immense trusses, semi-double, center liliace; white, center dwarf; neat habit, profuse bloomer... 25

Souvenir de Grenoble, white, marbled with rose, apricot center, very distinct; fine... 25

Walter Scott, very large trusses, of fine shape, color rich flowing crimson... 25

12 beautiful varieties for $2.
NEW ZONALE AND NOSEGAY (SINGLE) GERANIUMS.

The following collection embraces the finest novelties among Single Zonales and Nosegays.

Geranium, Alphonse Daudet, excellent shape and size, with large trusses; stands sun well; a red-shade salmon, with much darker center.

Geranium, M. Ed. Chartron, rose-mauve, upper petals blotted white, immense trusses; a grand sort.

Each, $2.25

Othello, scarlet with a white eye, a brilliant and beautiful variety.

Post National, salmon rose, white center, immense trusses, very vigorous, grand bedding variety.

Othello, scarlet with a white eye, a brilliant and beautiful variety

Protea, florets of good size, borne in large trusses; eye clear silvery-lilac, passing to light rose; good foliage and habit.

Queen of the Belgians, the very best variety with single florets; it is of neat habit and flowers profusely.

Renan, large trusses of rich apricot-salmon flowers, very floriferous.

Scarlet Cloth, magnificent trusses of the richest scarlet flowers.

Sceptre Rose, a light rose-colored variety, with upper petals; large compact trusses.

Sarah Bernhardt, a beautiful salmon with white center; size, shape, very large, perfect trusses.

Swanley Gem, very large florets, scarlet-white.

Tancrede, vivid crimson, white blotch on petals, immense truss; a fine variety.

Toussaint-Louverture, rosy crimson, grand trusses, splendid bedder.

Victor Hugo, brilliant orange, large trusses, dwarf compact habit, extra.

Viola, magenta, blotched with white, fine truss.

W. E. Gumbleton, crimson tinted with magenta, white centre.

White Perfection, an excellent free-flowing pure white variety of vigorous growth and good habit; the trusses are of medium size, fine shape and of snowy whiteness.

12 beautiful varieties for $2.25.

Each, $1.50.

NEW DWARF OR MINIATURE ZONALE GERANIUMS.

Geranium, Compte de Flandre, very effective double flowers, delicate rose, shaded with bright red; very free flowering.

Geranium, Comte d'Hainault, an exceedingly dwarf and pretty variety, producing a profusion of double flowery salmon flowers.

Comtesse de Flandre, charming large double flowers of a beautiful rosy-scarlet color; very neat and pretty.

Reine Marie Henriette, single rose colored flowers of perfect shape; a free grower.

Princess Stephanie, an exceedingly dwarf variety; color lilac-pink, very free flowering.

Souvenir de Louis van Houtte, beautiful double carmine-rose flowers; very floriferous.

Each, $25.

Price 20 cents each.

The set of 6 for $1.00.

NEW PLANTS.

*PHILODENDRON ANDREANUM.

A striking Aroid, discovered by M. André, of Paris, in New Granada; it is by far the finest species of Philodendron for decorative purposes ever brought under cultivation. Its stately foliage when fully developed may be compared, for size and effectiveness, with that of Anthurium Veitchii and A. Warocquianum.

The evergreen leaves are elongated vertically from a robust erect footstalk, and attain a length of four to five feet. When first expanded on the young plant, they are of a decided scarlet tinge shaded with brown, when a little older they become a bronzy red-brown before finally changing to the normal bright velvety green of the mature leaves. Through all these changes, the colors are relieved and enhanced by the white midrib and nerves that branch from it. Ready in April. $2.50 each.

*SHUBERTIA GRANDIFLORA.

A new plant of great merit, destined to take a prominent position as one of the best novelties introduced for many years. It flowers profusely in clusters, shape of the Allamanda, pure white, deliciously scented, and lasting a long time in water; flowers large and of good substance. For cut blooms and decorative purposes it is unique; the culture most simple in the ordinary greenhouse. Ready in April. $2.50 each.

*APHELANDRA MARGARITÆ.

A beautiful Acanthaceae plant of dwarf habit, leaves lanceolate-acute, dark green with a stripe of white along the margins of the veins, dark rosy-pink beneath, flower spikes short; flowers brilliant orange-vermilion. Ready in April. $1.50 each.
*APHELANDRA CHRYSPORTS.*

One of the most handsome species yet introduced, producing a grand golden inflorescence a foot in length, composed of four rows of compound ovate pointed bracts, proceeding from which are its flowers, which are of the same bright yellow color. To add to its beauty, this plant has also striking variegated leaves, thus combining two attractive qualities, and rendering it one of the most desirable of ornamental plants. The leaves are of a motley green, the variegation consisting of the principal veins being of a creamy white color. Ready in April. $1.50 each.

*BEGONIA "GLOIRE DE SCEAUX."*

A most useful acquisition raised by Messrs. Thibaut & Keteler, of Sceaux, near Paris, from *B. Socotrina* and *B. Subpelata*; it is one of the best winter-flowering Begonias yet obtained. The plant is exceedingly floriferous and very vigorous, forming a compact and regular pyramid from 18 to 24 inches high. The stem is robust and much branched; the leaves broadly and obliquely cordate, deep green with a rich metallic lustre. The flowers are of a bright pale rose color. 50 cts. each.

*ARISTOLOCHIA ELEGANS.*

A beautiful free-flowering species of neat growth, imported from Brazil. The handsome and elegant flowers are borne on long stalks and have a slightly distended tube, which is suddenly bent upwards into a cordate cup-shaped limb of a rich dark purple, ornamented throughout with irregular branched markings of a creamy-white, and having a golden-yellow eye surrounded by rich velvety-purple. Its blossoms are produced in the richest profusion, even on small plants, and are entirely free from the objectionable odor peculiar to the genus. 50 cents.

**IMPERFLORENS GIGANTEA CARMINA.**

This is unquestionably one of the most beautiful plants that have been brought under the notice of horticulturists for many years. The inflorescence is very brilliant, being particularly striking from having a series of the richest vermilion-crimson *Poinsettia*-like bracts, the lowermost of which are four inches long, are very persistent, remaining in perfection two months. From the base of each bract are produced pendulous flowers, in twos and threes of a creamy-white color, offering a striking contrast to the rich coloring of the other parts of the inflorescence. $1.50.

*BEGONIA DECORA.*

A shrubby variety with dark green obliquely lanceolate leaves, profusely marked with oblong spots or dots of a silvery-gray color; somewhat of the character of *Argyrostigma*, but with the spots more minute. 40 cts. each.

**SEMPEFLORENS GIGANTEA CARMINA.**

"Should be grown by every florist, in quantity, as it is one of the very finest of winter flowering sorts." 25 cts. each.

**LOBELIA CAVANILLESI.**

A very showy species. One of the principal merits of this Lobelia is the beautiful and in this tribe unknown coloring of the flowers, the tube being brilliant scarlet with orange-yellow lips. Being most free-blooming and easily cultivated, it is equally desirable when grown as a pot plant or planted out. 30 cts. each.
BOUVARDIA PRESIDENT CLEVELAND.
This far surpasses in richness all others of the genus, the color being rich velvety scarlet. Few scarlet Geraniums are brighter than this. 50 cts each.

*PLUMBAGO CAPENSIS ALBA.
A pure white variety of the beautiful P. Capensis, equally free in growth and profusion of flower. $1.00 each.

*OCTROWSKIA MAGNIFICA.
"A tuberous-rooted Campanula, grows five feet high, and bears flowers the size of a teacup. The best new hardy plant of this and for many years to come." Ready in April. $1.00 each.

AGERATUM "LITTLE DORRIT" NEW WHITE.
Charming dwarf, bushy variety, with white flowers; an exact counterpart to the well-known beautiful blue sort; particularly useful for cutting.

*ABUTILON VITIFOLIUM.
A very distinct species from what are usually grown; it forms quite a large shrub, with large downy foliage, flowers freely, lillac veined, much harder than the other class of Abutilons, and may prove quite so South. A very desirable plant. $1.00 each.

*REINWARDTIA TETRAGYNE.
A very beautiful greenhouse plant, with golden-yellow flowers, which are produced freely during winter. It is similar to that good plant Linum Trigynum. Ready in April. $1.50 each.

*ERANTHEMUM MACROPHYLLUM.
A very desirable winter-flowering stote plant. Its pretty light blue flowers are borne in terminal and axillary spikes. The lower petal or lip extends horizontally and is of a deep bright blue, forming a pleasing contrast to the celestial blue of the upper petals. Blooming as it does in the winter, when flowers are so scarce, this will be found a welcome addition to our stoves. It is very free flowering and of good habit. 50 cents.

*ALOCASIA SANDERIANA.
A remarkably handsome and truly grand Arad, and one of the finest stote plants. It has erect petioles, which are brownish-green and striated mottled; on the young leaves the color is bright glossy green, and on the older leaves the surface has a metallic blue reflexion. The leaf-blade is arrow-shaped, the front portion with about three triangular lobes on each side, the basal portion with one or two smaller lobes; the thick costa and the stout cross veins are white, conspicuously bordered with ivory-white, the margins also being white. This is certainly the most beautiful of all the Alocasias, and a most magnificent foliage plant. $2.50 to $5.00.

*IPOMŒA THOMSONIANA.
A beautiful new species, in habit much resembling the well-known L. Horsfalli. The flowers, however, which are borne in clusters, are pure white and much larger, being about three inches in diameter at the mouth. It has thick feé-hy leaves, and from its free-blooming character cannot fail to become one of the most popular and useful of stote-house climbers. Flowers profusely during winter. $1.00.

*NEW PASSIFLORAS.
Each.

*Passiflora, Acérfolia, maple leaved a new and beautiful Passiflora.............................................. 1 00
*Constance Elliott, pure ivory-white flowers, without a trace of the bluish tinge peculiar to the type; inner surface of the sepals and petals is white; the coronal threads being ivory-white, tinged with yellow, hardy.............................................. 25
*Prof. Eichler, a hybrid between Loudonii and Princeps, bright scarlet.............................................. 50
*Violacea, a very beautiful new Passion-flower, flowers of a lovely violet-blue, filaments white, anthers yellow, free flowering and fragrant... 75

*SPIRÆA ASTILBOIDES.
One of the most handsome of hardy herbaceous perennials, which has been certificated both by the Royal Horticultural and Royal Botanic Societies on account of its great merit. The stems grow from two to three feet high, and are terminated by compound feathery branches of elegant white flowers. It is a charming plant on account of its free growth and beautiful flowers, which are produced in the greatest profusion. $1.00.

*IBERIS SEMPERVIRENS PLENO.
There can be nothing prettier than the double white Candytuft for edging, beds, borders, rockworks, &c., and it is of particular value to the Florist. The flowers form a close bouquet of the purest white, and cover the dwarf, compact and beautifully rounded bush. The plant is well adapted for pot-culture, but its beauty will be more perfectly developed if planted out in the garden. The flowers appear in great profusion from April until June, 60 cts.
NEW ANTHURIUMS.

*Anthurium, Ferrierense,* a splendid hybrid obtained from *A. Ornatum* and *A. Andreanum.* The slender, erect foot-stalks of the leaves support a fine, bright-green, heart-shaped expansion, fully twelve inches long and six inches broad. The scape is stout and erect, attaining a length of twenty-four to thirty inches. The spathe, which is remarkably showy and attractive, is of cordate form five to six inches across, of a bright, rosy carmine, without any of the reticulated corrugations characteristic of *A. Andreanum.* The spadix is about five inches long, ivory-white to two-thirds of its length, with the upper third fawn color. 

NEW DOUBLE BOUVARDIAS.

Bouvardia, Hogarth Florapleno, of free growth, large double corymbs of flowers, very profuse flowering........................................... 50

Triomphe de Nancy, a vigorous and floriferous variety, with large compact corymbs of well-formed double flowers of a beautiful orange-salmon color........................................... 30

V. Lemoine, the fine imbricated double flowers of this variety are of a fiery scarlet color, produced in large corymbs in the freest manner, the plant being extremely floriferous............. 30

NEW TUBEROUS ROOTED GRAPE VINE.

A recent introduction, consequently not fruited or tested; as it comes from a warm climate—Cochin China—we may infer it will require heat to succeed. Two varieties—round and oblong. 30 cents each.

NEW DIEFFENBACHIAS.

*Dieffenbachia, Jenmani,* the ground color of the leaves, a rich bright glossy green, is relieved by a milk-white band at every lateral nerve and by a few white spots interspersed between the bands. The striking variegation renders it one of the handsomest of Stove variegated plants. "One of the most striking new foliage plants that has come under our notice."—Gardener's Chronicle............................. 75

*Dieffenbachia, Magnifica,* a truly magnificent plant, vigorous, distinct, and fine habit; with large green leaves spotted and marked with pure white. One of the finest Dieffenbachias,........................................... 50

NEW YUCCAS.

*Yucca, Filamentosa Aureo-Variegata,* this is one of the most ornamental of Yuccas with colored foliage yet introduced. It is distinguished from the normal form by the middle portion of the leaves being marked with bright yellow longitudinal bands. It will prove a valuable addition to the list of foliage plants for the decoration of the conservatory and greenhouse...............................$1.50 to 2.50

*Yucca, Pendula Variegata,* a very handsome variegated Yucca of fine growth, quite hardy.................................$1.50 to 2.50

MELOM PEAR OR MELON SHRUB.—Solanum Guatemalense.

"A very delicious fruit from the Highlands of Guatemala, and now being cultivated in California. It will likely succeed in the South. The fruit is of the size of a hen or goose egg, or even larger, and very much of the same shape. The color is lemon or pale orange with streaks or waves of bright violet, the whole making a fruit unrivaled in beauty. The interior of the fruit is a solid pulp similar to that of a pear, also of a pale yellow color, and of a taste resembling that of a fine musk-melon, but which has besides a most charming acid, so wholesome and so delicious that when the fruit is partaken of on a very warm day, it allays the thirst for several hours. The plant is an enormous yielder. 23 cts.

*MEDINILLA CURTISSII.*

A beautiful Stove plant of bushy habit. The flowers are produced in great numbers in terminal and lateral panicked cyms on flower stalks of a beautiful coral red. Each flower is about half an inch in diameter, and has an ivory white calyx and a creamy white corolla, which show to great advantage the central tuft of purple stamens.

The neat and compact habit of the plant, the profusion with which its chaste flowers are produced, and which continue in perfection for many weeks in the autumn, render this one of the most valuable plants of recent introduction. $1.00.

AGLAONEMA PICTUM.

This is a brilliant Aroid, with a fine rounded stem. The leaves vary in form, sometimes elliptical, oblong-lanceolate, are rounded at the base and almost suddenly acuminate at the top, from 4 to 7 inches long, and 2 to 3½ in width; they are of a light lavender velvety green, beautifully mottled with large spots and irregular markings of a whithish blue. The mid-rib is prominent and slightly channelled on the upper face. When in flower it is still more attractive. The spathe is remarkable for its curious pocket-like form and its knotty spadix. $1.00.

CURCULIGO RECURVATA VARIEGATA.

A variegated variety of this exceedingly beautiful and graceful plant. $1.00.
DRACENAS.

Each.

*Dracaena Lindeni, one of the most brilliant acquisitions recently made among fine foliaged plants. The stem is erect and simple, the leaves, which are deep green, are traversed by bands of creamy-white and yellow, handsome-ly variegated; a most distinct and striking variety. It is a plant which will gain a high reputation. $2.50 to 5.00

*Dracaena, Massangea, centre of leaf pale yellow, green margin; a very superb and distinct variety. This superb plant, like D. Lindeni, will be extensively grown, as they are two of the most distinct and graceful of decorative plants. $2.50 to 5.00

*SCHISMATOGLOTTIS LAVALLEEI.

“In announcing this lovely plant we are convinced that it will become popular among lovers of fine-foliaged plants. It may be distinguished at a glance from all other species in cultivation. The texture of the leaf is flexible, the mid-rib is slightly prominent on the upper surface, and of a beautiful bright green, on which are scattered numerous silvery white spots, producing a most pleasing effect.” $1.00.

NEW BEGONIAS.

Begonia, Albo-Picta, a neat and pretty species, introduced from Brazil, distinct in character from all the cultivated kinds, whether species or varieties. It is shrubby in habit and of compact growth; the leaves are glossy green, freely spotted with bright silvery white. It has small and elegant foliage, and will make a really useful and pretty plant for decorative purposes. ............. 30

Assamica, a very distinct and beautiful species. ............. 50

*Assamica, a very distinct and beautiful type; the marking is delicate and exceedingly beautiful. ............. 1.50

Berthe de Chateaurocher, a very distinct and hand-some variety: flowers large orange vermilion, free bloomer; one of the finest autumn and winter bloomers. ............. 30

Diadema, a species of incomparable beauty, and, moreover, a distinct type; leaves of a delicate green, and marked with white elongated blotches. The leaves are perfectly smooth and shiny; the ground is a clear green, whereon numerous white spots are scattered, without regularity, in bands. ............. 30

*Mira, a hybrid between Diadema and Gosoensis; finely spotted foliage; a distinct and beautiful hybrid; a superb plant. ............. 50

Begonia, Gosoeensis, a beautiful new Begonia; leaves large, round, bright green, veined with rose carmine, the whole covered with velvety down which has a metallic lustre. ............. 50

*Borgia, a beautiful new species from Brazil. ............. 75

Manicata Aurea Maculata, this very beautiful Begonia has its fine foliage blotched and spotted with yellow, similar to the well known Parfugliani grande, a grand foliage plant. ............. 75

Semper-virens elegans, a very vigorous growing plant, and superb winter bloomer; color deep bright rose. ............. 50

Schmidtii, flowers white during fall and winter. ............. 25

Socotrina, a species of remarkable interest, discovered in the island of Socotra. B. Socotrina is a plant of very neat habit, with erect stems 8 to 12 inches high, furnished with orbicular peltate leaves 4 to 7 inches in diameter, and producing a profusion of bright rose pink flowers, of which the males are fully two inches in diameter. Its great recommendation is its very free blooming character, and its flowering in the depth of winter. ............. 40

Teutschii, new and fine. ............. 25

*Ville de Namur, this beautiful foliaged Begonia is in style of Louise Chretien, but superior. ............. 75

CROSSANDRA UNDULÆFOLIA.

This is a dwarf, shrubby plant, rarely exceeding a foot high, with spreading ovate-lanceolate evergreen leaves. It flowers freely in the summer, and continues in bloom for several weeks. The flowers are produced successively along an erect spike 2 to 3 inches long, formed into a four-sided kind of strobilus by numerous opposite acutely-keeled hairy bracts, in which the calyx of the flowers is concealed; the corolla is bright orange-yellow tinted with rose. 75 cents.

*CIENKOWSKIA KIRKII.

This handsome and interesting plant is a native of Eastern Tropical Africa; its blossoms are exceedingly attractive and beautiful; they are produced on a many-flowered scape, and are of a soft purplish rose color, with a biff golden spot in the centre. It has received a First-Class Certificate from the Royal Horticultural Society. 50 cents.

SELAGINELLA GRANDIS.

A handsome erect-growing species, with large, broad, recurved, grass-green fronds, much branched, the divisions half an inch broad, densely clothed with distichous, imbriicating, subulate. 75 cents.

COLOCASIA NEO-GUINENSIS.

A new aroid, it is remarkable for its tufted habit, the shortness of the leaf stalks, and its short-stalked inflorescence, and the beautiful green tone of its smooth and shiny leaves, spotted with creamy white. It will form an interesting addition to collections of Aroidaceous plants, and probably may prove valuable for the embellishment of the out-door garden in summer, like C. Ecselenta, now so much cultivated. 50 cents.

HIBISCUS CHRYSANTHUS.

A very distinct new species from Natal: very large flowers, bright deep yellow, purple eye. This beautiful plant bedded out the past summer flowered finely with me. 60 cents.

PIPER METALLICA.

A very decorative plant, with round leaves, thick and of a beautiful sparkling metallic green, a native of Borace. An exceedingly pretty plant. 50 cents.
OF NEW, RARE AND BEAUTIFUL PLANTS.

PELLIONIA PULCHRA.

An exceedingly pretty trailing plant, with light green foliage marked with dark spots. A charming trailing plant, 30 cts.

IMPATIENS.

Impatiens, Sultana, a very beautiful plant from the East coast of Africa. The plant is a free grower and continuous bloomer, color of flowers a rich carmine magenta................. 20 cts.

JASMINUM GRACILLINUM.

Jasminum Gracillimum is one of the most distinct in its graceful habit and in the abundance of its large-scented flowers, which are also more copiously produced. It appears to be a small species, with long, very slender branches, with long heavy flowers, as long as on all sides, weighed down by terminal globose panicles. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white fragrant flowers. 30 cts.

BRUGMANSIA SANGUINEA.

An old but neglected plant; free luxuriant grower, with large, hairy foliage, flowers long, white, tubular edge margined crimson.............. 30 cts.

ANTHRURIUMS.

*Anthurium, Crystallinum, the emerald green refugent leaves are spotted all over with a brighter shade, and bordered by a broad silvery or rather crystal band, which surrounds the intramarginal and four secondary nerves. These dazzling white zones are so distinct and regular that they resemble a border of incised silver around the sections of the blade of the leaf.............................................. $1.00 to 2.00

Floribundum, a very pretty species, of easy culture. Flowers pure white, freely produced......................................................... 50 cts. to 1.00

Magnificum, the foliage of this plant is truly magnificent, a noble species with large velvety-leaved flowers and broad surfaces. 1.00

Veitchii, a very handsome Aroid. The leaves are ovate-oblong, greatly elongated, attaining lengths of from 2 to 3 feet, with a breadth of less than one-third of these dimensions; with a glossy metallic surface when first expanded, becoming paler by age. The principal nerves are arching and deeply sunk, giving the surface a conically waved appearance. As an exhibition or decorative plant it will always take a very high position......................................................... $1.50 to 2.50

*Anthurium, Regale, this is a superb ornamental foliage plant. There are several varieties of this plant. The one now offered is the finest; the leaves are heart-shaped, much lengthened out towards the apex, and rich dark velvety-green in centre................................................. $1.00 to 2.00

Scherzerianum, one of the most striking and beautiful dwarf-flowering stove plants of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is easy of culture, and a most abundant bloomer................................................. $1.00 to 2.00

Tetragona................................................................. 50 cts.

WAROCQUETUM, the leaves are greatly elongated, attaining lengths of from 24 to 30 inches, with a breadth of not more than 7 or 8 inches. The ground color is a deep green of a very rich hue, with a velvety luster and appearance, with which the light color of the midrib and veins form a pleasing contrast. To the lovers of fine foliage plants this beautiful Anthurium will be a most welcome acquisition.......................... $1.00 to 2.00

ALOCASIAS.

*Anthurium, Schedei, very beautiful, between A. Metallicum and A. Lowii. The form of the leaf is perfectly intermediate between the two parents, whilst the coloring is very striking and pleasing combination of the metallic hue of one parent, with the dark green and prominent white veins of the other. A fine foliage plant......................................................... 50 cts. to 1.00

*Thibautiana, a splendid foliage plant of stately and robust habit, and, without doubt, by far the finest of all Alocasias. For exhibition purposes it stands in the front rank among foliage plants, and in the State it forms one of the most distinguished ornaments. A first-class certificate was awarded to it by the Royal Horticultural Society................................................. $1.00 to 1.50

Veitchii, the foliage of this plant is exceedingly distinct. A grand show plant.......................... 50 cts. to 1.00

*Zebrina, fine yellow leaf-talk, with distinct black marks, rendering it a very conspicuous plant. It makes a grand specimen.............. 50 cts. to 1.00

*GLOBBA COCCINEA.

The stems are much crowded, 12 to 18 inches long, and gracefully arching on all sides, giving the plant a very elegant contour. They are furnished with deep green leaves and terminate in a dense raceme of flowers, of which the bracts are scarlet and the perianth yellow. The plant is continuously in bloom during the greater part of the year. The elegant habit of this plant, its richly-colored flowers of singular structure and their long duration, render it a most useful and interesting plant. 50 cts.
HIGGINSIA ROEZLI.
A very beautiful new tropical plant, with dark bronzy leaves, streaked and marbled with white. 50 cents.

POTHOS.

*Hoyas, Carnosa, a beautiful fragrant plant........ 25
Variegata, centre of leaf green, margined with silver.......... 25
Imperialis, a robust, vigorous growing species, with very large flowers......................... 50
*Motoskee, new........................................ 75
Paxtonii, a very beautiful species, similar to Bella, but of freer growth...................... 50

*Pavonia, Wioti, the outer calyx consists of two whors of bright red bracteoles, the outer whorl shorter than the inner, which equals the closed corolla. Both the latter and the calyx are of a red-black. It flowers continuously throughout the year, but most freely in the winter months.................. 50

PAVONIAS.

*Montbretia, Bouquet Parfait (new), yellow, blazed with vermilion.............................. 75
Crocosmiaflora, an exceedingly beautiful bulbous plant, a hybrid between Montbretia Pot- tsi and Crocosmia Aurea—flowers in longspikes like a Gladiolus; color brilliant orange and crimson. Per doz. $1.50.......................... 10

MONTBRETIAS.

*Montbretia, Elegans (new), very bright yellow with vermilion........................................ 50
Pottsii, a bulbous rooted plant from the Cape, requires similar treatment to Gladiolus; stem 1 1/2 to 2 feet high, with a panicle nine inches long bearing long, deep bright yellow flowers, tinted outside with red. Per doz. $1.00.............. 15

ANTHERICUM PICTURATUM.
Without a doubt one of the handsomest foliage plants ever introduced, in growth equal to A. Nitatum, the variegation is entirely distinct, having a rich creamy white band 3/4 of an inch wide running through the centre of each leaf, margined on each side with rich deep green. 30 cents.

NEW DIEFFENBACHIAS.

Dieffenbachia, Baraquianina, a fine vigorous plant with white stems, leaves green, spotted and blotched with pure white................ 50 cents to Baucei, it is a stocky-growing broad-leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green and also spotted with white, the marking being particularly effective.................. 75 cents to Eburnea, distinct and very beautifully marked foliage.......................... 25 cents to Illustris, a stout-habited stave plant of noble character, with bold and finely-marked leaves. The blade is large, oblong-ovate, distinctly cordate at the base, marked all over with irregular blotches of yellowish green, and with a tendency to become yellow along the course of the principal ribs.................. 50

Leopoldii, a South American plant of resplendent beauty. The leaves are oblong-ovate, of a rich, deep, lustrous, satin-green, traversed by a broad and stout ivory-white rib, which is bordered on each side through its entire length with a whitish band, and shows in strong contrast to the color of the leaf surface, producing fine pictorial effect.................. 50

Dieffenbachia, Bowmanii, very large bright green leaves, blotched and marked with golden green; a grand specimen plant................... 25 cents to Nobilis, the leaves are of a deep rich green, marked over the central portion to within about an inch of the margin, with largish, angular, irregular and variously confounded white spots, which contrast with the color of the margin and intervening portions......................... 30 cents to Picta, a very beautiful foliage plant, leaves a deep green, mottled with white; beautiful.................. 25 to Splendens, a plant of great beauty, remarkable for the lustre of its coloring. The stem is faintly mottled with dark and light green. The leaves have a thick ivory-white midrib, and the ground color is of a deep, rich, velvety bottle-green, with a resplendent, lustrous surface, freely marked with whitish striated blotches, which stand out in striking contrast with the dark green ground color.................. 50

Weirii, it is of dwarf habit, the foliage of a bright green color, thickly blotched and spotted with pale yellow. This is one of the finest of the Dieffenbachias.................. 25 cents to 50

COLUMNEA SP.

An exceedingly pretty epiphyte which we have introduced from Guatemala; grows well on a log with or without moss; it also grows freely in a pot; flowers creamy white covered with minute red spots. 50 cents.

HOYAS.

Hoya, Carnosa, a beautiful fragrant plant........ 25
Variegata, centre of leaf green, margined with silver......................... 25
Imperialis, a robust, vigorous growing species, with very large flowers.............................. 50
*Motoskee, new........................................ 75
Paxtonii, a very beautiful species, similar to Bella, but of freer growth...................... 50

Hoya, Globulosa, "the flowers are of a bright straw color, the corollas protuberances white, the interstices of a shining brownish-pink, forming a very pleasant contrast; the trusses large and freely produced, and the leaves of a shining green color, with dark green veins."—Floral Magazine.......................... 50
BURBIDGEA NITIDA.

This beautiful plant is the type of an entirely new genus with the habit of Hedychium. It is a native of Borneo. It produces ten to thirty slender flowering stems, each bearing a panicle of 12 to 20 flowers each. The leaves are of a lively glossy green on both surfaces, and serve to set off the rich orange-scarlet colors of the flowers. Its flowers, of a rich orange hue, render it a very striking stove plant. 40 cents.

*DRACENA GOLDIEANA.*

One of the most magnificent ornamental foliaged plants ever introduced, and altogether unique in character and aspect. It is a native of Western Tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of a grayish color, terete with a narrow furrow along the upper side, the base being dilated and sheathing the stem. The base of the leaf is cordate-ovate acuminate with a yellowish-green costa, and banded with dark green and silver-gray in alternate straight or furcate bands, the colors being about equally distributed. The back of the unrolled leaves is a pale reddish-purple or wine color, and the stem where visible at the upper joints is of similar hue, the lower parts becoming green. It is, without doubt, one of the finest of all Stove plants, and indispensable in all first-class collections. $1.50 to $2.50.

**DRACENA GOLDIEANA.**

CURMERIA WALLISII.

The leaves are spreading and marked with very irregular dark green maculations, some running out from the green costa and others situated near the edge. The intermediate spaces are furnished with broadish patches of very pale yellowish-green, which in the more matured leaves becomes a greenish-gray. The colors are about equally dispersed, though the marking is very irregular, both as to the size and form of the blotches. $1.00.

PEPEROMA PROSTRATA.

A very ornamental basket plant, with slender, creeping stems, and alternate round variegated leaves. 25 cents.

ARDISIA OLIVERI.

Ardisia Oliveri is a Stove shrub of remarkably striking appearance, with recurved foliage and large globular heads of flowers like those of an Ixora, but of pink color. The plant was introduced from Costa Rica by the late M. Endres. 40 cents.
NEPENTHES, PITCHER PLANT.

*Nepenthes, Cocinea (Hamiltioniana), pitchers about 6 inches long by 3 in width, crimson, slightly speckled with yellow, flask-shaped, pointed at the base, distended below the middle, broadly cylindric above; rim broad, finely ribbed, riba particolored, red and blackish; throat greenish, speckled with red; lid ovate oblong, smaller than the mouth, greenish, striped and speckled with red. 2 50

*Domini, a beautiful pitcher plant, having its large pitchers freely; color green, marbled and spotted reddish brown. 2 50

*Nepenthes, Distillatoria, one of the oldest varieties, but one of the most distinct and valuable. 2 50

*Hookeriana, a magnificent species of robust habit; the leaves are long and broad, supporting fine stalked pitchers upwards in length and 2 inches in diameter; the ground color is dark green, which is profusely streaked and blotched with dark red. 2 50

*Lewisii, a very free growth, with pitchers freely of moderate size, of a bright green color, shaded with reddish brown. 75 ects. to 1 50

*Mastersiana, this is indisputably the finest hybrid Nepenthes yet obtained. It was raised from N. sanguinea and N. Distillatoria. The pitchers are as richly colored as those of N. sanguinea, but easily distinguished from that grand species by their having the characteristic blotches of N. Distillatoria on the deep claret or blood-red ground of N. sanguinea; they are cylindric, slightly distended below, and contracted above the middle, where there is a rib or prominence; they attain a length of 8 inches, and a breadth of 2, and even more, as the plants increase in strength. This hybrid is quite distinct from every other Nepenthes in cultivation; a pitcher is produced from every leaf. 2 50

*Morganiana, it is of dwarf neat habit, furnished with smooth, pale green leaves with red midrib. The pitchers are skew-shaped, with two rather narrow ciliolate wings; when fully grown are from 6 to 8 inches in length. On the younger plants the pitchers are beautifully mottled with bright red and pale green; in the older plants they are almost self-colored and blood red. 2 50

*Phylamphora, of very free growth, producing in great profusion moderate sized pitchers of a bright green. 50 cts. to 1 50

*Rafflesiana, of robust growth, producing very large pitchers of great beauty, which measure from 8 to 12 inches in length; ground color dark green, mottled and blotched with red. Its handsome pitchers render it a general favorite. 2 50 to 5 00

*Sedini, the pitchers are produced freely even on very small plants; they are of medium size, oblong, dilated at the base, narrowed above the centre; and slightly expanded towards the top; in color they are a dark green densely covered with dark red spots, 2 50

Stewartiana, a hybrid between N. sanguinea and N. Hookeriana; pitchers intermediate in size between the parents, with rather broad ciliolate wings in front and a prominent rib behind, deep green densely spotted and striped with crimson. 2 50

PITCHER PLANT.

*Courtii, a hybrid pitcher plant of exceptional merit. The leaves are margined with hairs; the pitchers, which are freely produced, are flask-like, deep green in color, densely spotted or clouded with deep crimson and attain a length of from 6 to 8 inches. $2 50 to 5 00

Patersonii, the pitchers, which are produced abundantly, are marked with numerous reddish brown spots; a distinct and handsome variety. 2 50

CRASSULA JASMINEA.

A very valuable and handsome plant, flowers white, resembling a Bouvardia, very fragrant. 25 cents.
NEW TRITOMAS (KNIPHOFIA).—Flame or Torch Flower.

*Tritoma, Caulescens,* this is a very distinct plant, rising on a stem with a Yucca-like head of channelled, arching leaves; the flower stem is from two to three feet high, surmounted with an enormous head of brilliant blossoms. 1 00

*Corallina,* a beautiful new plant, flowers very brilliant, coral red. 1 00

*John Benary,* new. 1 00

*Leichtlini,* flowers rich orange vermilion, a very handsome and distinct Tritoma. 1 00

*Nobilis,* truly called "noble"; a plant of very vigorous growth, throwing up a flower stem six feet high, surmounted by a foot-long cylindrical flowerhead of bright scarlet and golden yellow. 50

<table>

<td><em>Saunderii,</em> a vigorous plant; the flower stem is not quite so tall, and the head is conical instead of cylindrical; the flowers are red throughout; a fine addition to the group to which it belongs, and should be included in the most select collections</td>
<td>50</td>
</tr>
<tr>
<td></td>
<td><em>Quartiniana,</em> this also rises on a short stem; the leaves are channelled, arching, rigid, their points touching the ground, and of a graceful blue color; the flower stem is stout, surmounted by a large head of yellow flowers. 1 00</td>
<td></td>
</tr>
</tbody>
</table>

TOXICOPHLÆAS.

*Toxicophila, Spectabilis,* a beautiful plant with white flowers. It is extremely floriferous, even in the youngest plants; the flowers are produced in very large corymbs, each flower being of a tubular form with expanded limbs.

It is very useful for bouquets, being delightfully fragrant as well as beautifully chaste in color. 1 00

*B. Thunbergii,* another beautiful species with large corymbs of pure white flowers, exceedingly fragrant. 1 00

BIGNONIA MAGNIFICA.

A free growing and extremely floriferous stove plant, of scandent habit. The flowers, which are produced in large branching panicles, are of great size (about 3½ inches across) and of exceedingly attractive color, ranging from delicate mauve to rich deep purplish-crimson, relieved by a conspicuous throat of light primrose color. 50 cents.

PHILODENDRON CARDERI.

The leaves are cordate, broadish, of a dark shaded bottle-green, with a satiny lustre, the principal ribs being marked out by bright green lines of glaucous or metallic hue; at the back the leaves are of a shaded wine purple, the course of the veins being marked by broad green lines. The glossy shaded satiny surface of the leaves imparts to them a wondrous degree of beauty. 40 cents.

ASPARAGUS.—New Species.

Florists will find in these new Asparaguses, with their delicately beautiful feathery growths, plants admirably adapted for floral work.

*Asparagus, Plumosus,* an elegant evergreen climber with slender stems, smooth and numerous spreading branches; the white flowers are produced from the tips of the branchlets. It is an exceedingly handsome ornamental plant for the greenhouse or conservatory, and its pretty feathery growths are extremely useful for cutting for decoration. This is the finest species for florists—much more valuable than the dwarf variety. 2 50

<td><em>Virgatus,</em> of shrubby habit, elegant and feathery. Root-stock omitting several stems, the upper part of which branch in a corymbose manner; branches sub-erect, again twice branched; a feathery, graceful plant. 25 to 50</td>
<td></td>
</tr>
</tbody>
</table>

ALPINIA ALBO-LINEATA.

A very striking and beautifully variegated plant, 3 to 4 feet high when fully developed. The leaves are 9 to 12 inches long, elliptic-lanceolate, pale green, marked divergently with broad bands of white and pale green. This is a grand addition to our ornamental plants, and makes a fine contrast intermixed with other foliage plants. 40 cents.

ARTOCARPUS CANONNI.

A tropical plant of exceedingly ornamental foliage of a rich bronzy-crimson tinted with purple above, beneath of a vinous red, about 1 foot long and 7 inches broad; very variable. 50 cents.

NEW PANAX.

Panax, Lacinatum, an elegant and very distinct plant. The leaves are tinted and indistinctly marked with pale olive-brown, and form a rather complicated mass of narrow segments; they are bipinnate, nearly as broad as long, and have a drooping contour. 25

| Each. | Panax, Victorine, a distinct and very graceful store plant, thickly furnished with leaves of a remarkably elegant character, forming a gracefully recurving mass of pleasing variegated foliage, and is one of the most lovely and elegant variegated plants | 50 |

CLIDAMIA VITTATA.

A splendid foliage plant, having large green leaves with a light band down centre of the leaf, of easy culture and rapid growth. 40 cents.

LAURESTINUS.—Viburnum Tinus.

*Laurestinus, Splendens, a variety of Laurestinus, with magnificent large flowers. A good grower and a free bloomer. ........................................ 50

Each.

*Laurestinus, Pure White, the flowers of this variety are pure white. ........................................ 50

Each.

PHYLLANTHUS ROSEA-PICTUM.

This variegation is exceedingly rich and varied, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are bright crimson, which is also the color of the stem during the early stage of growth; some are a light cream color, tinged with a delicate blush, others again have a dark bronzy hue, shaded with crimson; some are dark green with blotches and spots of rose, while others are tri-colored, white with different shades of rose and green. 39 cents.

DICHRISANDRAS.

*Dichorisandra, Mosaiica, an extremely handsome plant, of dwarf habit; leaves large, ground color of the upper side rich, deep shining green, traversed with an innumerable quantity of parallel transverse fine white lines; the upper side is of a uniform deep purplish maroon. The flowers ........................................ 1.00

Dichorisandra, Thyrsiflora, a very fine species, flowers in a thrys of rich azure; magnificent species ........................................ 50

Undata, very different from D. Mosaiica, producing large ovate leaves, very dark green in color; the midrib and veins are of a lighter green, which gives the leaves a striped or marbled appearance ........................................ 49

HIBISCUS CARDIOPHYLLUS.

I have the pleasure of offering this extremely beautiful Hibiscus, which I have received from southwestern Texas. In habit it resembles an Abutilon. My plants were bedded out the past summer and succeeded admirably, flowering profusely during the season. The flowers are bright scarlet, over two inches across, which makes it a very striking plant. A sterling novelty. 25 cents.

NEW FERNS.

ADIANIUMS.

*Adiantum, Anesiense, a very elegant free-growing species of Maiden-hair Fern, introduced from the Island of Aneiteum; firm in texture, with a glabrous surface; the roundish reniform sori are borne in the centre of the lobes ........................................ 75

Bau sei, a hybrid variety between A. Trapeziforme and A. Decorum; in size intermediate between the two. Its peculiarity is the drooping position of the pinnales; in the form of its pinnales it also differs from any other known Fern ........................................ 50

*Cuneatum Deflexum, it was raised between A. Cuneatum and A. Bau sei. "The plants are dense and compact in growth, on which account they are well adapted for grouping in small baskets and jardinettes." ........................................ 50

*Cuneatum Grandiceps, it differs from the species in several striking particulars. It is more robust in habit, the fronds are more elongated, the pinnae also terminate in similar but smaller branchings, and these by their weight give the fronds an elegant arching habit ........................................ 75

*Collisii, a beautiful Fern allied to the well-known Adiantum tenerum, but far superior to it. As distinguished from A. tenerum, the fronds are more numerous, somewhat taller and much more branched, giving the plant a far more elegant contour ........................................ 75

*Dolabifforme, a beautiful evergreen Adiantum; fronds elongated, pinnae prolific, pinnales dolabiform. An exceedingly graceful Fern ........................................ 59

*Fragrantissima, a greatly desirable variety; it is also a beautiful Adiantum ........................................ 1.50

*Lathomi, in the way of A. Ghile-breghiti, but with a drooping habit. Fronds 2 to 3 feet high, drooping somewhat. An exceedingly graceful and beautiful Fern ........................................ 75

*Adiantum, Farleyense, Alcicorne, an exceedingly distinct and handsome variety of this beautiful Fern ........................................ 1.50

*Legrandii, a pretty dwarf Fern, with small triangular fronds densely set with overlapping pinnales. Handsome compact habit, very distinct ........................................ 1.00

Luddemannianum, a remarkable variety; the peculiarity consists in the pinnales being crested or agglomerated at the extremities of the stipes and their rachides; they are also much crisped and curled ........................................ 1.00

*Monochlamys, a distinct and beautiful new Adiantum ........................................ 1.00

*Nove Caledonia, a distinct and pretty species, with pinnae pinnales, the pinnales deeply cut, compact in habit and very graceful ........................................ 1.00

*Pacotti, an elegant Maidfern, 4 to 5 inches high, with elongate triangular, tripinnate fronds, with densely set pinnae and pinnales ........................................ 50

*Rhodophyllum, a most distinct and beautiful Fern. The fronds attain a height of 15 to 18 inches. When first developed the young pinnales are crimson, changing with age to a soft pale green ........................................ 78

*Victorine, a handsome decorative Fern with densly tufted habit; sterile lobes serrate; sori oblong or reniform at the apex of the lobes ........................................ 50

Weigandii, a very pretty and novel Maidfern, not in habit, having the compact bunchy style of growth of A. Decorum. We regard this as a very distinct Fern ........................................ 50

*Williamsii, the New Golden Maiden Hair. This splendid novelty is destined to become a general favorite, and for cutting purposes its value cannot be overestimated. It succeeds well in a greenhouse temperature. It is in every respect quite as free and hardy as A. Cuneatum ........................................ 1.00

Asplenium Nobilis, this is a graceful Fern, with light lace-like plume and arched fronds which somewhat resemble those of A. Viviparum or A. Lineatum .................. 50

*Davallia Tenuifolia Stricta, an exceedingly handsome Fern, with spreading plume-like, broadly ovate fronds ........................................ 50

*Pteris Bau sei, ........................................ 1.00
Lastrea Richardsii Multifida, the plant has fronds 5 feet high. Its bright green color and the broad-crested apices with their numerous narrow divisions give this plant a singularly elegant character. 25 cts. to 50

*Nephrolepis Rufescens Tripinnatifida, this is unquestionably the handsomest and most effective of all the forms of the widely distributed *Nephrolepis Rufescens* yet discovered; it is a native of the Fiji Islands. The fronds are tufted, erect or sub-erect, to 3 feet high; the sipes and rachides are of a glossy red-brown color and clothed with a ferruginous tomentum. The pinnae are much cut and divided into segments in endless variety as to length and form. The aspect of the plant is light and graceful in the extreme. 2 50

*Nephrolepis Tripartita, a beautiful and distinct Fern. The fronds are densely crowded, from 15 to 18 inches long, pinnate and much crested. The pinnae are produced in pairs one over the other, the largest. Compact elegant habit. 30 cts. to 50

**Gymnogramma Schizophyllum**, a very beautiful and distinct Fern. The frond is about 2 inches broad, with a few large meshes and a very fine cut. A remarkable peculiarity in this Gymnogramma is seen in the formation of the rachis and where it is proliferous, every frond producing a young plant. One of the most attractive of Ferns. 25 cts. to 50

*Pleopeltis Fossa*, its very arching habit of growth and comparatively small size make it a very suitable object for suspending from the roof of the stove Fernery, and its durable leathery evergreen fronds give it a peculiar distinctness of character. 75

*Platycentrum Alpinum* (Elk's Horn Fern), very handsome and distinct evergreen Fern succeeds well on block or basket. 50

*Majus*, large and very beautiful variety. 2 50

Bifrons, or very beautiful. 2 50

Hilli. 3 50

Willinskii. 2 50

Ethiopica. 2 50

Plaat, a very beautiful and distinct species, of *Ferns*, succeeding admirably on blocks.

**Gleichenia, Dicarpa**, the color of the younger and fresher-looking fronds is a dark green, with a kind of metallic or bluish tint, and the under side is glaucous. 2 50

*Ruprechii Glaucens**, a very beautiful species, of G. Ruprechii. The fronds are of a much thicker texture and very glaucous on the surface, changing with age to a bright glaucous green. A very effective variety. 2 50

*Semivestita*, a very pretty compact free growing species, makes a handsome specimen plant. 2 00

*ARALIAS.*

*Aralia, Amboinense* (Sciadophyllum pulchrum), a very ornamental plant with large, bright green shining foliage. A grand decorative plant. 1 50

*Elegantissima*, a beautiful plant with straight erect stem, furnished at about intervals with digitate leaves, mortled with white on a dark green ground; the leaflets, from seven to ten in number, and gracefully pendulous. The color of the foliage is a deep green shaded with brown. 1 00

Filocifolia, a plant of the first rank, graceful in habit, and well furnished with foliage, altogether the most beautiful of the most beautiful of the decorative plants. The stem and leaf stocks are purplish, marked with oblong white spots. 30

Reticulata, a very distinct species of free growth; a fine decorative plant. 50

**Gleichenia, Flabellata**, a distinct and fine species, makes a strikingly beautiful plant. 2 50

*Dichotoma*, a very handsome species, makes a very beautiful plant. 2 50

*Mendeli**, one of the most distinct and free-growing kinds. It is a very compact growing species, requiring cool treatment. The pinnae are of a thick texture, and very glaucous on the underside. 2 50

*Speluncæ*, a distinct and beautiful species, makes a charming specimen plant. 2 50

**ARALIAS.**

*Aralia, Gaylfoylei*, the leaves are made up from three to seven stalked oblong-elliptic bluntish leaflets. These leaflets vary in size from two to three inches long, and even margined with creamy white. 25 cts. to 40

*Regina*, as the name implies, it is truly the Queen of Aralias. It is of a larger habit of growth than the Veitchii section; the leaf branches are more closely set, and the habit of growth is very graceful; the stem and petioles are beautifully freckled. 1 50

Siegoldtii. 25 cts. to 50

*Veitchii*, a very elegant plant from the South Seas Islands, producing very narrow digitate leaves, considerably undulated; upper surface dark green; lower, dark crimson. One of the most beautiful decorative plants in cultivation. 1 00

**PHYGIELIUS CAPENSIS.**

This pretty Penstemon-like plant I have found quite hardy, it having passed several winters out doors without protection. It grows from 3 to 4 feet high, and has numerous semi-herbaceous stems, each terminated by a long branching raceme of flowers, which are brilliant scarlet. It is a most persistent flowerer, beginning in May or June and continuing up to frost. This is one of the most ornamental hardy plants in cultivation. Garden. 30 cents.

**SALVIA.**

Salvia, Greggii, a pretty new species which I have introduced from Texas. This has long spikes of brilliant cherry color; a continuous bloomer, very compact habit, and nearly or quite hardy in this latitude. 25

Salvia, Microphylla, new, small leaved, very much in the style of Greggii, with very small foliage, and brilliant cherry colored flowers. 50

**ANASACANTHUS WRIGHTII.**—New.

A new plant I which I have received from south-western Texas. This shrub attains a height of four to five feet, bushy, flowers orange, a continuous bloomer, nearly or quite hardy. 30 cents.

**SONERILA HENDERSONII.**

A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery-white pearl, or tiger-like spots upon a rich dark olive-green ground. Flowers rosy-lilac. This beautiful plant proves far easier in its management than any of the former species of Sonerila. We have found this plant a profuse bloomer during the winter. 30 cents.
PHYLLOTÆNIUM LINDENI.

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent midrib of the same color. $1.00.

SENECIO PULCHER.—Beautiful Groundsel.

A half hardy perennial, a pretty plant, with rosy-crimson flowers, very showy, flowers late in summer. Figured in American Agriculturist. 30 cents.

VERONICAS.—Shrubby.

Veronica, Reine des Blues (new), very beautiful spikes of blue.................. 25
Gracieuse, carmine........................................ 25

VERONICAS.—Herbaceous.

Veronica, Hendersonii, a new species introduced from Japan, growth about 2 feet high, robust habit, foliage broad, of a deep rich green, dense and abundantly produced. The flowers are very large, rich deep violet blue, produced in large cluster heads composed of many spikes;

the finest of the herbaceous section of Veronica

Veronica, Elegans Variegata, a very beautiful hardy herbaceous plant, with elegantly variegated foliage, long spikes of blue flowers.................. 25

TECOMA STANS.

A very fine plant, from southwestern Texas, has succeeded finely bedded out with us during summer. The flowers are a rich yellow, and very floriferous. A superb plant for the South. 50 cents.

APHELANDRA FASCINATOR.

A very fine species, with very ornamental foliage as well as magnificent flowers; the leaves are rich dark green, beautifully banded with silver white, and underneath of a uniform purplish velvet; the spikes of bloom are very large and of a dazzling vermilion color. 40 cents.

CANNAS, (New).

Canna, Ehemanni, the most distinct of all Canna on account of the large oval Moss-Ensete-like soft green leaves, which place it foremost among decorative foliage plants. Its most striking feature is the splendid carmine-red flowers produced on flower stems of great length, that unfold about 12 flowers to each of the smaller branches.......................... 30
Gladioliflora, flowers deep amber or orange colored, which are very large; foliage a deep blue-green, very distinct.......................... 30

Canna, Noutoni, this very distinct and fine Canna is closely allied to the last. Like it the foliage is large and fine. The flowers are also very large and showy, of a bright scarlet; a grand Canna ........................................ 30
Adolph Weick, very dwarf compact habit, flowers of a rich crimson-scarlet, shaded with orange, foliage rich pea green. One of the daintiest and most free flowering in cultivation.................................................. 30

CAMYLOBOTRYS GHIESBRIGHTI VARIEGATA.

A pretty variegated variety of this beautiful plant. 25 cents.

POSOQUERIA LONGIFOLIA.

This plant forms an elegant bush, and is very free flowering. Leaves large, somewhat ovate, coriaceous, and shining green; flowers tubular, pure white, produced in large corymbs of a dozen and more, waxy-like, from 3 to 4 inches long, and deliciously fragrant. 50 cents.

ERIOCNEMA MARMOREUM.

Plant dwarf, with habit of some of the Begonias, leaves green, striped with bands of white: a beautiful plant. 50 cents.

*CYANOPHYLLUMS.

*Cyanophyllum, Spectandum, a grand plant with large velvety leaves and whitish tils, which grow to an immense size and are very attractive. A fine plant for flower shows, fairs, &c., as it makes a beautiful specimen.....50 cts. to 100

*Cyanophyllum, Assamicum, a very beautiful foliage plant, large fine foliage........50 cts. to 100

*Magnificum, a grand specimen plant, having large beautiful foliage..................................75 cts. to 100

*SPHÆROGYNE LATIFOLIA.

A plant with the grandest possible foliage, large, broad and flat, deep green on top, under side cinnamon-brown; very hairy leaves and stems; a grand speciemen plant. One of the most attractive for exhibition. $1.00 to $2.00.
NEW SALVIAS.

| Salvia, Amabilis, deep violet, shaded porcelain-blue and white. Very free bloomer. | 10 |
| Bethelii (involucrata), bright rosy pink tipped with white, extra fine. | 10 |
| Cacaliloum, flowers rich blue. | 10 |
| Hoveyi (lanthina), habit and general character of S. Splendens, but with dark blue flowers. | 10 |
| Mrs. Mitchell, crimson-purple, very distinct. | 10 |

| Salvia, M. Issanchon (new), flowers pure white, calyx white striped, very fine. | 10 |
| Mrs. Stevens, flowers a deep crimson. | 10 |
| Nigrescens, flowers of a blackish violet and lavender colored calyx. | 10 |
| Rutians (new), magenta flowers, fine. | 10 |
| Splendens Bruanti, a dwarf growing variety, producing fine large flowers of a velvety red color. | 10 |

NEW ABUTILONS.

| Abutilon, A. Besson (new), bright red, compact habit, free bloomer. | 20 |
| Camelion (new), yellow, mottled crimson. | 25 |
| Canari, rich canary. | 20 |
| Chinois (new), beautiful orange-salmon, large profuse bloomer. | 20 |
| Chrysoteplanhan (new). | 25 |
| Comtesse de Greffite (new), a superb white flower. | 20 |
| Edouard Layelion (new), deep rich golden yellow, flushed with rose. | 20 |
| Firefly, compact habit, flowers brilliant red. | 20 |
| Fleurs des Tropiques (new), pure white bloomer. | 25 |
| Hibiscus (new), canary yellow, margined rose. | 25 |
| Incendie (new), bright crimson-purple, veined carmine. | 20 |
| Louise Deleaux, purest white, dwarf habit. | 20 |

| Abutilon, Le Rhone, orange-crimson, striped with maroon. | 20 |
| King of Roses, flowers rich deep rose, of great substance. | 20 |
| M. de. Anaire, flowers large, purest white. | 20 |
| Moderate (new), bright red, veined with crimson, fine. | 15 |
| Ne Plus Ultra, rosy crimson, veined light. | 15 |
| Purity, flowers of the purest white. | 15 |
| Royal Scarlet Flower (new), very bright. | 15 |
| Scarlet Gem, produces its brilliant red flowers when only a few inches high. | 20 |
| Thompsoni, deep bright yellow, a very fine variety. | 15 |
| Thompsoni plena, double flowers, orange-shaded and streaked with crimson. | 15 |
| Vitifolium, see Novelties. | 15 |

PAMPAS GRASSES.—Gynanem Argenteum.

*Pampas Grass, Album Variegata*, white variegated Pampas Grass. This beautiful grass has all the grace and elegance of *G. Argenteum*, and flowering quite as freely; add to this its graceful foliage striped with silvery white. | 1 00 |
*Argenteum*, the well-known Pampas Grass, with long graceful foliage, which gives off in autumn its beautiful silvery plumes. | 25 |
*Stenackeri fol Variegata*, a very beautiful variegated grass. | 1 00 |

*Pampas Grass, Elegans*, a very vigorous and beautiful variety. | 50 |
*Elegans Niveo-Vittatis*, another very elegant Pampas Grass, handsomely variegated. | 1 00 |
*Aurea Variegata*, gold variegated Pampas Grass. Another beautiful variety, similar in its graceful habit to the last, but in this the foliage is striped with a deep yellow; a charming variety. | 50 |
*Monstrosus*, very robust in growth. | 50 |
*Roi des Roses*, foliage striped with rose. | 1 00 |

NEW POINSETTIAS.

| Poinsettia, Alba, flowers white. | 50 |
| Pulcherrima Plenissima (new Double Poinsettia), this magnificent plant is remarkable for its floral bracts, the size of the heads in which they are produced, and their marvellous brilliancy of color. The whole inflorescence is full and rosette-like, and of most vivid and brilliant scarlet color. | 50 |

| Poinsettia, Pulcherrima Major, an improvement on the old species, both in the size of the individual bracts, and also in the larger heads, which are of a bright scarlet, tinted with violet colour. | 50 |
| Rosea-Carmenata, in this fine variety the heads of bracts are larger, smooth, and of a brilliant rosy carmine. | 50 |

FICUS.—India Rubber Tree.

| Ficus, Australis, foliage, a pretty ornamental plant. | 40 |
| Aurea | 30 |
| Exotica, India Rubber Plant. Fine large shining foliage; a fine decorative plant. | 50 |
| Variegata, an attractive variety of this useful plant, the leaves being veined and margined with yellow. | 50 |
| Lucida, leaves bright green, shining. | 30 |
| Nymphaefolia. | 30 |

| Ficus, Macrocarpa, a free growing shrub, with smooth terete stems and coriaceous glossy ovate-oblong entire leaves, five to six inches long and three inches broad. | 50 |
| Parcellii, a splendid decorative plant with beautifully variegated foliage. The leaves, which are of large size, thick texture and coarsely serrated on the margins, are of a bright green color, profusely but irregularly blotched with creamy-white and dark green. | 50 |

YUCCAS.

| Yucca, Quadricolor, the foliage of this is long, recurved and beautifully variegated; a very fine plant. | 1 00 |

MARANTAS.

| Maranta, Amabilis. | 30 |
| Argyrea. | 30 |
| Barquirii. | 30 |

| Maranta, Bicolor, deep green, marked with dark brown. | 30 |
| Goveniana. | 30 |
Maranta, Legrelliana
Illustrate, a variegated species of Maranta, a rich lustrous green, being a rival to M. Lindernii and M. Veitchii, assuming the habit of M. Rosa picta whilst young. Towards maturity, the tracery changes to a broader white one within the margin. 50 cts. to 1.00

Lietzei, foliage very dark, with a golden feather along its centers. A fine species. 50 cts. to 1.00

Lubersii (new), a very handsome species, foliage ratiocinated with yellow. Makes a handsome specimen plant. 30 cts. to 1.00

Massangeana, a very distinct dwarf species. The variegation consists of three distinct colors. The midrib veins and middle portions of the leaf are silvery white, finely tinged with bluish-green, then a broad band of blackish-hue, the whole being surrounded by a belt of bright green, margined with a thin line of a lighter shade. 30 cts. to 1.00

Makoyana, a very ornamental dwarf-growing species. Leaf stalks slender, reddish-purple, blade of the leaf ovate, ground color olive-green, beautifully and regularly blotched with creamy-yellow of a transparent character. On each side of the midrib are oblong dark-green blotches, whilst the under side is rosy-red. 50 cts. to 1.00

*Musica, a very beautiful new species, foliage beautifully marked. 1.00

Porteanna, this is a vigorous-growing species, with fine large foliage feathered with white... 30 cts. to 1.00

PANDANUS.—Screw Pine.

Pandanus, Javanica Variegata, this variegated Screw Pine is well known as one of the finest decorative plants; leaves green, with broad stripes of pure white, gracefully curved; very beautiful...50 cts. to 1.00

Utilia, Screw Pine; very fine decorative plant, with recurved graceful foliage...25 cts. to 1.00

Veitchii, this splendidly variegated Screw Pine is one of the most attractive plants. The leaves, which are of a light green color, beautifully marked with broad stripes and bands of pure white, are most gracefully curved, which elegant habit of growth renders the plant extremely effective...50 cts. to 1.00

PHORMIUM.—New Zealand Flax.

*Phormium, Atropurpureum, a very desirable species; habit the same as P. Tenax; leaves reddish-purple. This makes a distinct decorative plant for the sub-tropical garden; a distinct and beautiful plant. 2.50

*Celensoi Variegatum, this beautiful plant has fine, broad, erect, pointed, dark-green leaves, elegantly banded at the margin with one or sometimes with two conspicuous stripes of creamy-white, a habit similar to that of P. Tenax, but is altogether distinct, while its more erect habit gives it quite a distinct appearance. $1.00 to 2.00

*Purpurea nigro-limbata, this is a distinct form of New Zealand Flax, having erect leaves of a glaucous green, the margin having a well-defined bar of blackish-purple. The points of the leaves are split down for some distance, both sides of each of the divided portions having the blackish-purple margin...$1.00 to 2.00

*Phormium, Cooki Variegatum, an elegant, somewhat dwarf-growing plant; leaves green, beautifully striped with golden-yellow. Native of New Zealand...$1.00 to 2.00

*Veitchii Variegatum, this is a finely variegated form of the well-known New Zealand Flax. The leaves are of the same size as the species, with conspicuous broad stripes of creamy-white running out their whole length, and contrasting well with the light-bluish green ground color. It is a truly noble plant...$1.00 to 2.00

CLERODENDRONS.

Clerodendron, Balfouri, a beautiful climbing species, which blooms profusely on the young wood, flowers scarlet and white. 25

Coronaria, a very desirable plant, flowers double, white, very fragrant, fine for hedging out. 25

LAPAGERIAS.

*Clerodendron, Thompsonii, a very beautiful climbing stove plant, with crimson flowers, free, vigorous grower and profuse bloomer. 25

*Lafergeria, Alba, a beautiful variety of the last, with numerous large bell-shaped flowers of purest white...$2.50 to 5.00
DIPLADENIA.—(Echites.)

*Dipladenia, Amena,* flowers of a soft pink color suffused with rose, somewhat resembling D. Splendosa, but in every respect a great improvement on that variety, being of superior form, the lobes being stiff and round instead of reflex and pointed. ........................................... 75

*Amabilis,* a very beautiful species, bright rosy-carmine, a good grower and free bloomer. .... 1 00

*Boliviensis,* a very free flowering white Dipl adenia. In habit it is very compact, producing an abundance of flowers in a much smaller state than almost any other species. The foliage is medium in size and of a light glossy green color. The flowers pure white, with a distinct yellow centre. ........................................... 1 00

JASMINUM, SAMBAC.—(Arabian Jasmine.)

Jasminum, Duchesse d'Orleans, flowers double, white, like miniature white roses, deliciously fragrant, a very valuable plant. .............. 25

Grand Duke, flowers double, white, like miniature white roses, deliciously fragrant, similar to the above, but distinct. .................. 25

Grand Duchesse de Tuscany, flowers double, white, like miniature roses, deliciously fragrant in the style of the two preceding; very fine. .... 25

IXORAS.

Ixora, Amabilis, of vigorous and compact habit, deep orange salmon, well formed flowers, borne in large trusses, which are produced in great profusion. ........................................... 50

Coccinea, Superba, a beautiful variety, with very large heads of brilliant orange scarlet flowers, produced freely. .............................. 50

Fraseri, a most effective and beautiful variety, of free and vigorous growth, with rich dark green foliage, and numerous large, terminal, globular flower heads, with blossoms of a brilliant flamed salmon color, upon carmine scarlet flower tubes, and rich under petals of flower stalks. .............................. 50

Regina, it is of compact habit, and the flowers are of a deep shade of color; the trusses are of a somewhat similar shape to those of I. Coccinea, but the plant is much more compact in growth than that variety. .................. 50

CALLIPHURIA SUBEDENTATA.

This is a very beautiful free flowering plant; flowers pure white, fragrant, similar to E. Amazonica. 25 to 50 cents.

EUCARIS.—(Amazonian Lily.)

Eucharis, Amazonica, large pure white fragrant flowers, full 1 inches in diameter, and are produced in abundance on the plan, 25 cts. to 50 cts. ........................................... 50

*Candida,* a very beautiful species, flowers pure white. .............................. 25 cts. to 50 cts. .............................. 50

Grandiflora, large pure white very fragrant, 25 to 50 cts. ........................................... 50

*Eucharis, Sandierii,* a distinct and beautiful new species. Its snow-white flowers are produced in umbels, and the corona, which is marked with six yellow stripes, is so shallow that it merely projects as a rim beyond the mouth of the tube. .............................. 30 cts. to 1 00

IMATOPHYLLUMS.

Imatophyllum, Miniature, a very excellent evergreen, warm greenhouse or cool store plant, resembles the earlier I. Grandiflora and Vellovista, in style of growth, with dark green leaves and large corymbs of erect, large, clear rich salmon or light flame colored cup-like blossoms ........................................... 50

imatophyllum, Mad. Van Houtte, a new and very beautiful variety ........................................... 50

LASIANDRA MACRANTHUS FLORIBUNDA.

A magnificent plant of good habit and a most profitable bloomer; the flowers are rich violet blue, between five and six inches in diameter and produced nearly all the year through. It requires the same treatment as Pleroma Elegans. 40 cents.

RUCELLIA MACRANTHA.

A Brazilian plant. Flowers freely of a fine violet-carmine, a pleasing color. This plant is of free growth in a warm house, flowering profusely and showy. One of the very finest winter blooming plants of recent introduction. 25 cents.
**STEPHANOThUS FLORIBUNDA.**

This plant is not new, but as a valuable stove climber it is unequalled. The flowers are pure white, of a waxy texture, very persistent. Some large plants in one of my greenhouses were covered with bloom the whole of the past spring and summer. 25 to 50 cents.

**STANTONIA LATIFOLIA.**

A climbing vine of great beauty. 75 cents.

**TABBERNÆMONTANAS.**

| Each | Tabernæmontana, Camelliflora Pleno (Glory of the Day), this plant is not new, but it is not cultivated to the extent it deserves; it succeeds well bedded out during summer, giving its lovely double fragrant flowers of the purest white in great perfection; excellent for bouquets, &c. | 25 |
|      | Tabernæmontana, Camelliflora Pleno (Glory of the Day), this plant is not new, but it is not cultivated to the extent it deserves; it succeeds well bedded out during summer, giving its lovely double fragrant flowers of the purest white in great perfection; excellent for bouquets, &c. | 25 |

**PARIS DAISY OR MARGUERITE.—(Chrysanthemum Frutescens.)**

| Each | Paris Daisy, Alice Crouse, very beautiful, in the way of Halleri Maxima, and producing flowers profusely | 20 |
|      | Paris Daisy, Alice Crouse, very beautiful, in the way of Halleri Maxima, and producing flowers profusely | 20 |

**ALOCACIAS.**

| Each | Alocacia, Bataviensis, foliage and stem dark purple | 25 |
|      | Alocacia, Bataviensis, foliage and stem dark purple | 25 |

**NEW TUBEROUS-ROOTED BEGONIAS.—Single Flowered.**

The following beautiful varieties will be found admirably adapted for bedding out, as they produce in the utmost profusion magnificent flowers of very large size, and great variety in color. The tubers rest during the winter months, similar to Gladioli, and can easily be re-started in growth in the spring. Their profuse flowering quality, and the charming variety of color of their blossoms, render them extremely showy and effective.

| Each | Begonia, Meissneri, clear salmon, large and beautiful | 75 |
|      | Begonia, Meissneri, clear salmon, large and beautiful | 75 |

| Each | John Saul, a free flowering plant of large, color dark scarlet-crimson | 50 |
|      | John Saul, a free flowering plant of large, color dark scarlet-crimson | 50 |

*Genl' Chanyz, beautiful rosy-magenta; a hybrid from Davila; very fine ..................................... 1.50
*Genl' Championnet, in the style of Glorie de Nancy, more brilliant ................................................ 1.50

NERIUMS.—Oleanders.

The following collection has been selected from the best European growers. I would remark that what they call double, in some cases are semi-double, and whilst young are disposed to give single flowers.

Nerium, Album Maximum, a very large and pure white semi-double ........................................ 25
Atropurpurea plenum, deep cherry-crimson, shaded purple ......................................................... 30
Cardinale (Double), rich double vermillion, lighter in centre of petals, one of the finest dark Neriums in cultivation .......................................................... 30
Flavum duplex (new), semi-double, pale sulphur, distinct .................................................. 30
Geant de Batailles (a), light blush centre, petals edged with crimson ........................................ 25
Gloriosum (new), flowers very large and double, of a brilliant cherry-crimson, extra fine ......... 25
Jean d'Arc, pure white, single, occasionally semi-double, a most prolific bloomer, a very valuable variety; can be highly recommended .......................................................... 30
*Luteum plenum (new), pale sulphur, double .............................................................................. 50

PRIMULA OBSCONICA.

A beautiful new Primula of the easiest culture. Nearly constantly in flower, but most profusely during the winter months. Flowers in large heads on long stems, white shaded with lilac, fragrant. 25 cents.

BOUVARDIAS.

For autumn and winter blooming plants the Bouvardias are well known to every florist.

Bouvardia, Alfred Neuner, superior in profuse blooming quality to the valuable single white variety, Davidsonii .......................................................... 25

Bouvardia, Brussels, light creamy blush, a new color, very distinct ................................................ 25
Candidissima, pure white .................................................................................................................. 25

Each. | Each.  
---|---
Begonia, Vicomtesse Doneraile, very large, rich vermilion, extra fine ........................................... 25
Washingtoniana, orange-vermillion, very large and double .......................................................... 25
White Lady, flowers pure white, profuse bloomer ................................................................. 25
Wih. Lichtenh., flowers of immense size, color crimson-vermillion and orange ....................... 50
Wih. Pfister, flowers rich carmine-vermillion, centre solferino, very large, in the way of B. Veltehli, but superior; magnifleeet .................................................. 50
Extra selected seedlings 25 cents each, $1.50 per dozen. Seedlings mixed 20 cents each, $1.00 per dozen.
Bouvardia, Davisonii or Vreelandi, the finest of all white Bouvardias, and of the free growth of its parent Hogarth.

Dazzler, a splendid variety of compact habit. It produces racemes of large white flowers.

Elegans, color a scarlet-carmine, flowers and trusses immense size.

Flavescens (new), flowers like Jasminiflora, but of a golden color.

Floribunda, flowers orange scarlet, very distinct and fine.

Hogarthii, a splendid raceme, rich scarlet, vigorous grower, fine habit.

Humboldti Corymbiflora, the blossom is the largest hitherto known in the group; the flower tube three inches in length, snow white and exquisitely fragrant.

First size, 25 cents each; Second size, 20 cents each; $2.50 per dozen.

SAUL'S DOUBLE CHINESE PRIMROSES.—Primula Sinensis Pleno.

*Primrose, Mary C. Saul (Saul), a seedling raised in our establishment. The flowers are as large as a carnation, very double, of the palest pink, fringed, habit strong and vigorous; the finest white Primula ever raised... 1.50

*Grandiflora rubra, very large, double red... 1.00

Mrs. John Saul (Saul), this superb variety was raised in our establishment. The flowers are large, pure white, petals overlapping, beautifully serrated, of fine form, robust and compact habit, highly recommended as the best double white Primula out... 50

*Fannie E. Saul (Saul), another of our seedlings, a counterpart in every particular of the last, except that the beautiful white blooms are occasionally flaked with vermillion, a magnificent flower... 1.50

*Primrose, Rosina M. Saul (Saul), this beautiful double flower has the style of the two last. The strain is of great vigor. The flowers, which are fully as large, are of a rosy crimson, fringed... 2.00

*Winifred Lawley (Soul), this plant is of the same vigorous strain as the others, flowers fully as large and very double, the color is distinct and novel, a beautiful pink shaded with lavender, finely suffused... 2.00

We recommend these beautiful Primulas to our patrons, believing them to be unequalled by any others in cultivation. Their merits are well-known to the florists of Baltimore and Washington.

DRACÉNAS.—Dragon Tree.

Our rich collection of Dracenas has been awarded the first premium by the Maryland Horticultural Society for several years, and first premium at the "Cincinnati Exposition." For decorative purposes these plants are now extensively grown, their broad, dark, tropical foliage and graceful habit render them very appropriate.

Dracena, Amabilis, the ground color of the leaf is bright glossy green, becoming beautifully marked and suffused with pink and creamy-white, changing to a light rosy-crimson; this variety is evergreen in the northern states.

Alexander (new), a beautiful plant, foliage bright green, with variegations... 2.50

*Angustifolia (new), this is suitable either as an exhibition plant or as a dinner-table decoration. The leaves are arching, about 15 inches long by one inch broad, dark green, richly marked with bright crimson and rose color, marked with the same color... $1.50 to 2.50

Baptistii, the leaves are green, margined and irregularly and obliquely striated with narrow creamy-white flake, passing through pale pink to deep rose... 50

Borhavci, vigorous grower, deep green, gracefully foliaged; fine decorative plant... 50

Braziliensis, a robust growing species, with large, broad green foliage... 50

*Danelliana (new), one of the best green varieties for decoration; stands rough treatment... 1.50

Elegantissima, a deep bronze, with a metallic lustre, and very distinctly margined with bright crimson... 50

Ensifolia (Dianella Ensifolia), foliage green, fine window plant... 50

*Ernesti (new), dwarf, compact habit, colors early, of a rich, bright crimson... 2.50

Frederic, it has a compact yet graceful habit, a rich rosy-crimson color, a grand decorative plant; one of the most valuable, as it colors beautifully in a small space... 50

Guifloycei, the ground color is bright green; fully one-half the leaf, however, is striped with white and bright rosy-red, the latter color mostly forming the border in addition... 50

Bouvardia, Longiflora, snow white, long tube, beautiful. Jasminoides, a beautiful species in the way of B. Longiflora, with larger terminal and auxiliary racemes of large white flowers.

Leiantha, dazzling scarlet.

Laura, bright pink.

President Garfield, double pink, quite as free in a profusion of flowers as the Double White. Priory Beauty, a beautiful shade of pale satin rose, flowers freely, in elegant and compact trusses.

Rosa Multi flor, bright rose. 25 cents.

Sanguinea, color crimson-vermilion; a very fine new variety.

Thomas Mechan, double scarlet.

Vulcan, a rich shade of crimson-scarlet, with the large trusses and free habit of Elegans.

Each.

*Primrose, Mary C. Saul (Saul), a seedling raised in our establishment. The flowers are as large as a carnation, very double, of the palest pink, fringed, habit strong and vigorous; the finest white Primula ever raised... 1.50

*Grandiflora rubra, very large, double red... 1.00

Mrs. John Saul (Saul), this superb variety was raised in our establishment. The flowers are large, pure white, petals overlapping, beautifully serrated, of fine form, robust and compact habit, highly recommended as the best double white Primula out... 50

*Fannie E. Saul (Saul), another of our seedlings, a counterpart in every particular of the last, except that the beautiful white blooms are occasionally flaked with vermillion, a magnificent flower... 1.50

*Primrose, Rosina M. Saul (Saul), this beautiful double flower has the style of the two last. The strain is of great vigor. The flowers, which are fully as large, are of a rosy crimson, fringed... 2.00

*Winifred Lawley (Soul), this plant is of the same vigorous strain as the others, flowers fully as large and very double, the color is distinct and novel, a beautiful pink shaded with lavender, finely suffused... 2.00

We recommend these beautiful Primulas to our patrons, believing them to be unequalled by any others in cultivation. Their merits are well-known to the florists of Baltimore and Washington.

Dracena, Haageana, a very distinct variety, with green foliage... 30 cts. to 50

Hybrida, the older leaves are of a deep green, margined with bright rose; the younger leaves, as the plant attains age, the latter formed leaves become entirely suffused with deep rose and creamy-white... 50

*Kneckel, dwarf, compact, gracefully curved; splendid decorative plant... 50

Mad. Chas. Heine (new), elegant drooping leaves, an exceedingly graceful plant... 2.50

Mad. L. Bergman (new), fine, graceful foliage, colors early, a very rich crimson... 2.50

Metallica, the leaves, together with the sheathing leaf-stalks, are of a uniform rich coppery-purplish hue when young; becoming a dark purplish-bronze when mature... 50

Mooreana, the base of the leaf-stalk and the midrib are of a bright reddish-crimson color, which, in the leaf itself, changes to a glossy bronze... 50

*Mrs. R. Turner (new), fine, graceful plants, colors early and well, very bright colors... 2.50

*Pendula (new), in the style of Cooperi, but much superior; graceful foliage, coloring very bright... 2.50

Porphyrophylla, a noble stave shrub of erect habit, with bold, broadly oblong leaves of a fine deep bronze-green color... 30 cts. to $1.00

*Renardie (new), dwarf, compact, dark green, colors early and very bright crimson... 2.50

Robinsoniana, light olive-green, very much striped with bands of bronze-crimson and greenish-white... 50

*Rosea-picta, a plant of robust habit and bold aspect. The leaves are beautifully colored with a delicate rose tint, which deepens by age to a bright Carmine... 50

**CORDYLINES.**

Cordyline, Australis, a very long, narrow, graceful foliage. | 25 |
Indivisa, long, narrow and graceful foliage. | 25 |
Lineata. | 25 |

**CROTONS.**—(Cordylium.)

These ornamental plants are natives of the South Sea Islands; they are among the most beautiful of variegated plants, the leaves being blotched with yellow and red in various ways, which renders them the most attractive and valuable for decorative purposes. They are of the easiest culture, succeeding in any warm greenhouse.

Our rich collection of Crotons has been awarded the leading prizes by the Maryland Horticultural Society for some years, and first premium at the Cincinnati Exposition.

| Croton, Aurea-Maculatus, a small leaved variety, deep but bright green, profusely spotted with golden-yellow. | 250 |
|Disraeli, midrib and margin of a light yellow. As the foliage becomes older the yellow subsides. | 250 |
|Disraeli, midrib and margin of a light yellow. | 250 |
|Interruptum, very long leaves, nearly an inch broad, bright scarlet, shading to a golden-yellow. | 250 |
|Irregulare, leaves broadest at the base; ground color dark green, midrib orange-yellow, with the margins the darker. | 250 |
|Johannis, the leaves are from 29 to 24 inches long, narrow, and pinnate, ground color bright green, the margins and midrib bright orange-yellow, a beautiful variety. | 50 |
|Picta, foliage dark green, spotted with red and yellow. | 250 |
|Spirale, the spiral leaves are from 9 to 12 inches in length and pendulous; in a young state, the ground color is green, stripped up the centre with a band of golden yellow; with age they change to a deep bronze-green. | 250 |

**HIBISCUS ROSA SINENSIS.—Chinese Hibiscus.**

(All are Magnificient Plants for Bedding Out.)

Hibiscus, Collerii, flowers are of a buff-yellow, with a crimson-scarlet base, and are particularly handsome. | 250 |
|Crucens, the flowers are compact and double, of a remarkably rich crimson-red, and having a strikingly showy character. | 20 |
|Carminatus perfectus, flowers nearly 5 inches across, with a deep crimson eye. | 20 |

variegated shrub, center of leaf green, broadly
ovate leaves........................................ 25

Quichouia, a new Japanese species with small foli-
age, very distinct and pretty shrub......... 25

Lonicera Planteriensis (new). climbing species, 50 cts. to 2.50

Many other beautiful Magnoliads.

Muhlenbeckia Complexa, an exceedingly pretty
trailling plant, with small round leaves thickly
set in the vines, having a very much the
appearance of a Maiden Hair Fern...

Neviusia Alabamensis ("Snow Wreath"), a
noteworthy shrub, its flowers in thickets under a long escarpment of rock,
and, when in full bloom, looked like a snow
wreath. In its native place it had a southern
exposure at the base of a high cliff, and as an
elevation above the tops of the trees below;
at that place I have seen virete wreaths of
3 feet long covered with bloom............. 30

Other from the beautiful Hill and Fergan-
from Japan, hardy south.......

Oterostry Obasa, a new Japanese shrub...

Philadelphus Yokohama, much the handsomest
of the flowering Magnoliads, it is of fine growth,
and produces its large, pure white, sweet-
scented flowers in drooping wreathe 3 to 4
feet long. It is also the latest bloomer........ 1 00

Philodendron Amurensis, a pretty medium-
sized tree from the Amour, pinnated foliage,
produces the Siberian Cork. "In autumn the
coloration of the leaves, which is bright red,
is very fine. It retains its foliage very late."

Phyllirea Vilmoreana, a beautiful hardy ever-
green.......................... 1 00

### CLEMATIS.

Among the most beautiful of climbing plants are the Clematis—whether trained over lattice work, on pillars, or trailing on the ground. There can now be found among them great variety of colors; all are profuse bloomers and quite hardy; mostly in one and two year old plants.

### CLASS I.

Perpetuals, summer and autumn bloomers flowering on shoots of the same year's growth, raised between Lanuginosa and Viticella, except those marked with (s), which are species.

**Clematis, Alba Magna** (new), large, pure white flowers; a magnificent Clematis... 50

**Alexandra**, large flowers, color reddish-violet, bloom beginning through the summer... 50

**Andre Leroy**, an immense flower of the finest form, color rich violet, with a metallic hue; a grand flower... 50

**Ascothodoxus**, the flowers containing six petals each, color a fine azure-blue; it is a most profuse bloomer... 50

**Atropurpurea**, large and intense crimson-blue... 100

**Aurelian**, flowers large and of a lovely porcelain-blue... 50

**Beauty of Worcester**, a very beautiful new variety... 50

**Belissaire**, very large, eight petals, bluish-white... 50

**Blue Gem**, flowers very large, shaded with light centre... 50

**Coccinea** (s), a native Southern species, quite free, flowers small, bright scarlet; a very interesting plant... 25

**Devon Periwinkle** of the Jacksonii type, very free bloomer, extra... 50

**Duchess of Teck**, flowers pure white, six-sepaled, with a faint, delicate mauve bar down the centre when first opened... 50

**Duke of Edinburgh**, this is a fine variety, flowers large, six-sepaled, of a rich violet-purple. One of the most attractive... 50

**Duke of York**, a large beautiful flower, having eight sepals of a rich mauve... 50

**Elaine**, double violet, a large, beautiful flower... 100

**Enchantress**, flowers very large, varying from one to two feet in height; large flowers of a variety of the Jacksonii type, very free bloomer... 50

**Flammula** (s), sweet-scented, the flowers are small, pure white and fragrant... 25

**Flammula Grandiflora**, sweet-scented, flowers violet-purple, large, with a faint creamy margin... 25

**Fulgens**, violet-purple, with a reddish band through the centre of each petal... 25

**Gipsy Queen**, an extremely rich, bright, dark velvety-purple variety of the Jacksonii type; very free, late flowering... 50

**Gloire de St. Julien**, French white, a very large flower; very extra... 50

**Clematis, George Burbidge** (new)... 50

**Grand Duchess**, a large flowered and very effective eight-sepaled variety; the flowers are as much as ten inches in diameter. The color is white, slightly flushed with a touch of pink... 50

**Graveolens** (s), a very distinct species, of rapid growth, a most profuse bloomer, color yellow—very distinct, quite hardy... 25

**Henryi**, a magnificient large white flower; a free grower and most profuse bloomer... 50

**Imperatrice Eugenie**, fine, large, pure white flower... 50

**Jackmanii**, a lovely hardy climber, with large flowers of a deep purple light violet; a profuse bloomer... 50

**Jackmanii Alba** (new), a pure white beautiful flower... 100

**Jean d'Arc**, flowers white, large and perfect, with three pale blue stripes on each petal. The plant is of a vigorous habit... 75

**La Nymphetta**, flowers white, with rosy stamens, fine... 50

**La Mauve** (new), light mauve shaded with violet... 75

**Lilicina Floribunda** (new), pale lilac, very veined; flowers the size of Jackmanii, but having six petals, perfect shape, fine... 75

**Lady Caroline Neville**, color delicate blush white, with a broad purple band in the centre of each petal... 75

**Lanuginosa**, a beautiful species, with light azalea flowers, richly colored, the contrast to the others... 40

**Candida**, flowers large, pure white, beautiful... 50

**Nivea**, a variety of the last, with large, white flowers, a very attractive variety... 40

**Louis Van Houtte**, double white, rose azure stamens—a beautiful flower... 40

**Lady Boville**, very free flowering, bright blue, large and very well formed... 40

**Lawsoniana**, a fine and very pure white, a fine and continuous bloomer... 40

**Lord Napier**, a most richly colored bloom, beauty late into the autumn; flowers large, an intense rich blue... 40

**Maddie Eliza Schenk**, a large and fine Clematis of a rich blue... 50

**Moritaksa Oke**, a beautiful new variety, satiny French white, closely set and slightly cupped, flowers very perfect in shape... 50
Clematis, Mad. Van Houtte, a splendid variety; white suffused with a bluish mauve colored tint

Marie Boisselot, an immense flower, pure white. Clematis.

Mrs. Hope, satiny mauve, bar rather dark tint, sepal broad and overlapping, forming a full slightly reflexed flower.

Mrs. M. Crook, white large flowers in centre with mauve.

Mad. Granger, flowers large purple violet with maroon midrib, redder than any other Clematis.

Montana (s), a Himalayan species, flowers white.

Mrs. B. Marquand, large flower, white with a large and beautiful flower, free bloomer.

Mrs. James Bateman, a very large lavender blue.

Marie Lefèvre, flowers from six to seven inches in diameter, delicate violet white with purplish lilac band in the centre of each petal.

Mad. Thibaut, an immense flower; white, a broad band of rose in the centre of the petals.

Otto Frosbiet, this variety is remarkable for vigor, and the flower is of large size and perfect in form, the sepal being sufficiently broad to be well imbricated. The color French white.

Othello, a large and beautifully shaped variety having six petals.

Purpurea Elegans, flowers large, fine form; color deep purple, well contrasted by its light colored flowers and pinkish brown anthers.

Princess Beatrice (new), amaranth-purple, a magnificent flower, with broad overlapping petals of great substance, from 6 to 8 inches in diameter, and nicely frilled, color silvery lilac with pale stamens, quite distinct.

Prince of York, large flower, pale lavender, petals, with red bars down the centre of petal; a beautiful variety.

Rubra Violacea, maroon shaded violet, fine.

Reine des Roses, a lovely white flower, delicately margined, with sepals, fringed.

The following varieties flower in spring and early summer, from the old or ripened wood of the previous year's growth; have been raised from Patens.

Clematis, Albert Victor, a thick velvety texture, flowers large, deep lavender, with brown ribs down the centre petal.

Barillet Deschamps, brilliant mauve, large double flowers.

Belof Woking, beautiful, purple.

Counsell of Lovelace, sepals a bluish lilac, within which is a rosette of small sepal-like bodies of deep blue lilac, forming a full double flower.

Duchess of Edinburgh, without doubt the best of the double whites yet known, most delicately scented, very free blooming.

Excelsior, large, finely shaped and occasionally double, color rich deep mauve.

Fortunei, a very fine species from Japan, flowers white, with white Clematis.

Fair Rosamond, six inches across. White with a bluish cast, having a light wine red bar up the centre of each sepal.

John Gould Veitch, a magnificent "Double Blue Clematis." It is a profuse bloomer, the flowers being very double, of a large size, and of a beautiful light blue.

Lucile Leof, flowers are composed of seventy-five to ninety petals; the blooms are semi-circular in shape, resembling large waffles, color rich lavender.

Lord Derby, a large flower with eight sepal; color pale lavender, very showy.

Miss Bateman, the blooms are large, of good shape and pure white, banded with creamy white down the centre of each petal.

Maiden's Blush, flower large, eight sepal; color delicate rose with cream centre.

Clematis, Robert Hanbury, magnificent large flowers: eight sepals, bluish lilac color, fine.

Samuel Mousson, mauve, with a reddish tint on the bars.

Sensational, white, large flowers of Clematis, satiny mauve.

Star of India, flowers from four to five inches in diameter; color rich violet purple, with a rosy white large flower, banded in the center.

Symeiana, delicate shade of pale mauve or lavender blue; a striking variety.

Thomas Tenant, white, with pale rose changing to very white, very handsomely marked.

Tunbridgeis, flowers four to six inches in diameter, dark blue, and ribboned on the centre.

Thomas Moore, deep rich violet tinted purple, a very large flower, occasionally nine inches in diameter.

Viticella, flowers purple, a very fine.

Venosa, a reddish purple, reticulated with white.

Grandiflora (new), a magnificent variety, free grower and free bloomer; color mauve, marbled and veined with white; very large flower with six and seven petals.

Alyssum, a large flower, marbled and veined, color purple white.

Rubra Grandiflora, a vigorous free growing variety, flowers profusely, color a very rich purple, velvety.

Kermesina (new), a large fine flower; rich amaranth purple.

Velutina Purpurea, very profuse bloomer, color blackish, with blue and marbled.

Vesta, the flowers are five inches across, and consisting of eight or more spreading sepalas of a deep violet color, with a creamy tinge over the centre bar.

Venus Vitrix, flowers double, of beautiful form, a delicate lavender, extra fine.

Victoria, red; flowers large, flowerers, composed of five or six petals, deep reddish mauve.

William Kennett, very large, deep purple, changing to lavender.

12 very fine, my selection, $1.00.

CLASS II.

Clematis, Lady Lonsborough, color a delicate silver lavender with a white stripe down the centre of each petal.

Mrs. George Jackman, the flowers are large, six inches across, flat, bright silver, some of the petals, overlapping; the color is a silvery white with a creamy bar.

Miss Crawshay, very large sepal, pale rose tinted with lilac.

Mlle. H. de Pulligny (new).

Mrs. Melville (new), pale mauve, large beautiful flower.

Proteus, a deep violet, with a pure white grand flower.

Standishii, one of the most beautiful flowers, of a kind of violet blue, with crimson and carmine tints, fragrant, and through lilac.

Sir Garnet Wolseley, nearly six inches across, of a slaty-blue ground, and in the matured condition a showy and distinct bar of plum red.

Stella, very showy. The flowers are of a light violet or deep mauve, with a distinct bar in the centre of each petal of a reddish plum color, some of the petals are tinged with yellow, and flowers of a delicate lavender color; very beautiful.

The President (new), large fine flower, with light and dark petals.

Virginia, a native species, a rampant grower, small white flowers in long wreaths and with long plumage, downy tufts.

Vita-alba (Traveller's Joy), very rampant growers, flowers white, small, in long wreaths, a very desirable vine.

Very fine varieties, my selection, $4.00 per doz.
GESNERIAS.

These are bulbous-rooted plants which bloom magnificently during the winter months.

| Gesneria, Alba rosea, rosy, creamy-white, throat carmine on yellow ground | Each. | 50 |

| Isolome Hirsute, a very beautiful South American plant, with flowers of a rich orange-vermilion; lobe of orange-scarlet. A grand novelty | | 50 |
| Scheeria Mexicana Corulescens, fine blue. | | 25 |

ACHIMENES.

| Ami Van Houtti, very fine blue, centre yellow. | M. Mielezi, white throat, striped with lilac. | M. de Rougemont, amaranth-purple. |
| Angust, rich plum, orange eye, spotted carmine. | Mauve perfection, rich mauve. | Pardina, orange-yellow, dotted with nasturtium-red. |
| Coccinea Purpurea, purple and scarlet. | Pink perfection, satiny-pink, large and fine. | P. Paxtoni. |
| Copard. | President Mallett. | P. Paxtoni. |
| Docteur Bucznod, carmine-violet, throat yellow, spotted with crimson. | Rose Queen, bright rose. | P. Paxtoni. |
| Grandiflora, Carl Wolfarth, bright violet, very large. | Treviriana Splendens, deep carmine. | P. Paxtoni. |
| Louis Van Houtte, violet, with carmine reflex. | Unique, rosy-pink, orange eyes. | P. Paxtoni. |

Price 20 cents each; $2.00 per dozen.

TYDÆA.—A Section of Achimenes.

The group of Tydeæ includes the late autumn and winter flowering varieties, producing a long and brilliant succession of bloom, and include the most florid colors found in the other sections, of pure rose, amaranth, rosy-crimson, scarlet, cerise, rose-orange, tinted scarlet and white shaded with rose, elegantly spotted or barred in nearly the whole section.

| Tydeæ, Gigantæa, majestic growth, flowers vermilion and golden-yellow. | | |
| Tydeæ, Agar, white, suffused with carmine and dotted with bright chocolate. | Alba Kermesina, white ground, shaded with bright rose and beautifully marked with crimson. |
| Alba Kermesina, white ground, shaded with bright rose and beautifully marked with crimson. | Alexander, limbs and throat spotted blackish-carmine. | |
| Alexander, limbs and throat spotted blackish-carmine. | Belzebuth, crimson, covered all over with black spots, like the skin of a leopard. | |
| Celine Van Eckhauta (new). | Commandant J. B. Salla, tube violet-carmine, lower lobes spotted violet, upper lobes carmine, dotted with blood-red. | |
| Ch. de Gerlache, lilac-carmine tube, limb white, striped with carmine, throat deep carmine. | Elliptica Multiflora, dark purple, with white spots. | |
| Tydeæ, Gigantæa, majestic growth, flowers vermilion and golden-yellow. | Lady Digby, brilliant crimson, beautifully spotted. | |
| Leon Duval, lively carmine, shaded with violet, limb lilac, dotted with crimson. | Madame Drino-Permez, carmine tube, limb yellowish, dotted with blood-red. | |
| Madame Halphen, a fine flower, lower lobes lightly tinted with blue, and spotted with carmine; the upper lobes shaded with carmine-rose. | Madame Heine, carmine tubes, lower lobes white, marked with spots of black, shading off carmine; upper lobes bordered with amaranth. | |
Tydæa, Massange.
Madame Lavallée, tube rose color, lower lobes white, spotted with purple-carmine, upper lobes margined with carmine.
Oscar Lamarche (new).
Robert de Diable, dark vermilion, covered with large jets, black fantastic figures.

Price 25 cents each; $2.50 per dozen.

EUCODONIAS.

The sections of Eucodonia and Nagelia are typical in habit by the well-known Gesneria Zebrina, the flowers being produced on large terminal cone-shaped racemes in drooping funnel-shaped flower tubes of rich violet and bright rose, with pretty dotted centres.

Eucodonia, Amphitrite, fine flowers of lilac-rose, three bands of orange-yellow.
Armidile, tender, flesh color, slightly lilac, yellow throat.
Diane, lilac-blue, throat yellowish.
Ehrenbergia, sky-blue flowers, very handsome.
Nagelioides Diamantina, large flowers of purplish-violet, very striking.

Price 25 cents each; set of 7 for $1.50.

NAGELIAs.

Nagelio, Amabilis, fine panicle of snow white flowers, with large lemon-yellow spots on the lower lip.
Artemise, salmon-yellow, throat golden-yellow.
Briche, yellowish, spotted with rose, tube flesh colored.
Cerise d'or, cherry-red exterior, interior golden-yellow spotted with cherry-red.
Comtesse de Flandre, tube and limbs vermilions. throat spotted vermilions.
Citrona Coronata, lemon-yellow with vermilions spots.
Daphne, tube and edge of the limb of a lively rose, centre pure white.
Evelyna, salmon-yellow, throat nankeen-yellow.
Fulgid Bicolor, upper part vermilions, lower part marbled white, extra fine.
Concolor, a magnificent variety of a fine vermilions.

Price 25 cents each; $2.50 per doz.

PLECTOPOMAS.

Plectopoma, Aurore, pretty salmon rose, throat yellow, spotted with salmon-rose.
Bicolor, tube flesh colored, tinted on the exterior with red, interior lemon-yellow.
Candidum, snow white with broad lemon-yellow blotch.
Great Eastern, large light rose flowers, white macule, pointed with carmine.
Gloxinæflora, large white flowers, throat golden-yellow blotched with scarlet.

Price 25 cents each; $2.50 per doz.

GLOXINIAS.—Class 1.

The varieties of this genus are all very handsome, producing abundance of magnificent flowers of a most beautiful description. The tubers should be potted in February or March. Place in a little heat to start them into growth; water sparingly till the plants are well established. When in bloom bring them into the conservatory or drawing-room. After the plants have done blooming dry gradually off, by withholding water from their roots; afterwards remove them to a warm, dry place.

The following are superlatively beautiful:
Those marked thus (e) have erect flowers.

Gloxinia, Agnes M. Saul (Saul), light crimson scarlet, large flower, very fine.
Andre Vesale (e), very beautiful flower, rich violet carmine.
Bramante, pure white tube, light rose lobes bordered with rich rose and blotched with white.
Byron, white ground; the margin of the limb is amaranth festooned with purple.

Gloxinia, Baron A. de Rothschild (e), very large and of fine form, white, completely reticulated and spotted with carmine.
Cardinal de Richelieu (e), creamy-yellow, throat spotted with purple and ornamented with a rich violet and crimson.
Cinderella (e), pure white with pink band, most beautiful.
**NEW GLOxinias.—Class 2.**

ZONALE AND NOSEGY GERANIUMS.

GENERAL COLLECTION.

For bedding out during the summer, there is no class of plants used so extensively at the present day as this. It succeeds to perfection, flowering profusely during the heat and drought of summer. They are equally beautiful and valuable in the plant house during winter.

Geranium, Alexander Stewart, bright scarlet. Attraction, or General Grant, bright scarlet.
Atala, fine truss, orange vermiloon. Albert Grey, light violet, base of upper petals scarlet.
Cosmos, enormous trusses of beautiful salmon-orange, centre of flower pale. Dante, under petals sorifer and violet. Daphne, carmine-velvety, upper petals spotted. Debuty Duvaux, velvet purple, very rich. Dr. John Denny, crimson-violace. General Grant, a crimson-scarlet. Dazzler, large white eye, the remainder of the flower dazzling scarlet.
Gracilis, color a bright rose and apricot. Gnome, color orange-scarlet, white eye. George Bentham, large trusses, clear rose-violet; upper petals blotched red, new color, extra. George Crabb, large trusses, carmine-vermiloon, very rich and fine. Henri Martin, fine truss, clear cinnabar-orange, beautiful.
Henry Cannell, grand truss of rich rose, with white spots, distinct and showy. Id. M. Pollet, crimson, with a white eye. Harry King, intense brilliant scarlet. Hebe, dark chestnut-colored crimson. Jane, purple-carmine.
Joyful Improve, fine truss, rich magenta, bordered with scarlet.
Geranium, Queen of Roses, bright rose.
Queen of Harvest, bright pink.
Renown Improved, color scarlet-red.
Ralph, crimson suffused with amaranth.
Rienzi, scarlet, each pip exceeds two inches in diameter.
Rose of Allendale, beautiful soft rose.
Richard Dean (dwarf), a dwarf variety, orange-scarlet, white center.
Rose d'Amour, bright rose.
Robert Brompton, fine truss, clear salmon, white center.
Sam. Sloane, a fine deep crimson variety of the Nosegay section.
Sylph, orange-scarlet, fine truss.
Stanley, orange-scarlet, with white eye.  

GERMAN COLLECTION.

La Rosiere (d), magnificent trusses, color lilac-rose. 25 cts.

Price 15 cents each; $1.50 per dozen (save where priced).

VARIEGATIONS OF VARIEGATED GERANIUMS.

Geranium, Mad. Solleroi, leaves from 1 to 2 inches in diameter; the centre of each is of deep olive-green with broad margin of pure white; it is not affected in the slightest by exposure to the direct sunlight. 10 cts.

PELARGONIUMS.—Show and Fancy.

In describing the color, the term "blotch" refers to the large spots on the two upper petals, and "spots" invariably refer to the dark marks upon the centre of the lower ones.

Pelargonium, Beauty of Kent, white maroon blotch.

Belle of the Ball, rose, painted with carmine.

Crinum King, crimson, with maroon blotch.

Emile Zola, truss large, color carmine-orange, bordered with bright rose, centre with maroon blotch.

Fred. Dorner, throat and edge of petals pure white, shaded towards the centre with a rich carmine-pink, with a glowing crimson blotch.

Gen. Thibaudin, carmine-orange, bordered with white, centre white, upper petals blotched; beautiful. 40 cts.

Jean Bart, vermilion-purple, centre white, upper petals blotched with maroon and edged with white; beautiful.

Lady of the Lake, orange-rose, painted with crimson, maroon top petals, with a crimson edge, white centre.

Lord Napier, lower petals rich deep orange-rose, dark maroon blotch on top petals.

Lord Clyde, bright scarlet, maroon blotch.

Mad. Seeleye, a very rich beautiful flower, centre purplish-lilac, shaded on upper petals to blackish-purple.

Mrs. John Saul (colored plate in 1878), this beautiful flower, which originated in our establishment, we consider one of the very best in cultivation. The habit is compact and very free flowering, producing large trusses of charming flowers. The color shown, a rich glowing vermillion, with light centre and light margin to the petals. 30 cts.

Miss Mary C. Saul (Saul), this beautiful new flower originated in our establishment; trusses large, deep rich crimson, dark blotch, smooth edge; a lovely flower.

Miss Rosina M. Saul (Saul), another of our beautiful varieties; fine trusses, upper petals crimson, with dark blotch; lower petals light crimson; centre white, all beautifully reticulated with crimson, slightly frilled.

Price 30 cents; $3.00 per dozen (save where priced).

SWEET SCENTED AND CAPE SPECIES.

Pelargonium, Apple Scented, very distinct.

Comptoniana Rosea, winter flowering species, with rose lilac flowers.

Capitatum Odoratum, cut foliage, odor of roses.

Diadematum, rose crimson, reticulated.

Dr. Livingstone, sweet-scented, cut leaved.

Echinatum (Cape Species), fine winter bloomer, flowers white. 40 cts.

Fragrans Odoratissimum, nutmeg scented.

Filifolia Odorata, it never changes its beautiful fern-like appearance. The fragrance is pleasing. 25 cts.

Pelargonium, L'Elégante, broad bands of white, and producing a mass of pure white flowers. 20 cts.

Mad. Lemoine (d) (new), bright rose, salmon centre.

Mad. Thibaut (d) (new), a grand variety, with very double flowers, of a beautiful rose. 25 cents.

Robert Fortune (d), clear carmine, very beautiful.

Pelargonium, Malvæforum, large mallow form, fine lilac with light lively rose blotches.

Mad. Vibert, fine black maroon bl-tches, bordered fiery red, the flower entirely edged with rose, vigorous grower, fine habit and free bloomer; a grand flower.

Orissa, upper petals light purplish-crimson, feathered and blotched with maroon; under petals soft violet-rose, marked with crimson; an attractive flower.

Prince of Wales, see Novelties.

Pink of Perfection, pink of a pleasing new shade, light centre.

Queen of Whites, pure silvery-white, very glossy rich upper petals.

Rodrigues, purplish-rose, dark spot.

Rosalind, very early, deep crimson veined and blotched.

Rose et Blanche, white, with rose blotches; beautiful.

Striata, scarlet upper petals with a dark blotch and all the flowers are beautifully striped with pure white.

Sunrise, delicate flesh-scarlet, dark blotches.

Striata Elegans, the flowers are a magenta rose, being flushed or barred with elegant blue mauve, the top petals have a black feather-like plume, unique in its combination of colors.

Speculum Mundii, light crimson, veined and striped.

Theophrasta, a very beautiful Pelargonium, flowers double crimson, freely produced; a very desirable variety.

Unique Meilius, cherry-scarlet, a very distinct color.

Woman in White, pure white, with maroon blotch, a lovely white flower.

William the First, pink, with dark blotch.

Zenith, beautiful carmine-rose, lower petals white blotched and veined with purple.

Price 15 cents each; $1.00 per dozen (save where priced).
PELARGONIUM HYBRIDS.

Pelargonium, Aquilon, white ground, very dark crimson. 20 cts.
Arabella, delicate lilac like, bordered with white, centre white, like a fancy Pelargonium. 30 cts.
Bouquet, a beautiful truss, of delicate rose, like a fancy Pelargonium. 20 cts.
Mont Blanc, white blotched with amaranth. 20 cts.

Pelargonium, Favorite, lilac, white centre, petals blotched maroon. 25 cts.
Gerbie Fleurie, white flowers, upper petals blotched. 20 cts.
Sultan, purple carmine, white centre, black blotch on upper petals. extra. 30 cts.

HYBRID PERPETUAL PELARGONIUMS.

A class of Hybrid Pelargoniums, of distinct habit, free bloomers, mostly fragrant foliage, good growers, excellent for bedding out, baskets, &c.

Pelargonium, Benoison, very rich dark crimson.
Bridal Ring, pure white, crimson spot on top petal, meat and elegant.
Cardinal Richelieu, bright scarlet crimson, dark blotch.
Freund Ebbe, bright carmine with dark veins and spots, very rich and attractive.

Price 20 cents each; $2.00 per dozen.

FUCHSIAS.—General Collection.

**Striata**, white ground, striped.
**Teresa (d)**, purple, fine.
**Winifred (d)**, purple, fringed white.
**White Perfection**, fine single white, fringed.

Price 10 cents each; 75 cts. per dozen.

We raise many thousands of carefully hybridized double Petunias from seed annually, of which there is invariably a large percentage of the finest double flowers. Also seedlings from the finest strains of fringed and single. Price 10 cents each; 60 cents per dozen; $4.00 per 100. Ready in April.

PERENNIAL PHLOXES.—(Phlox Decussata.)

This tribe of plants will succeed in any good, rich soil, not over dry. To the amateur they are invaluable. Perennials perfectly hardy, producing a profusion of bloom during summer and fall. There is every shade of color, from pure white to rich purple and crimson. Our collection of Phloxes received First Premium from the Maryland Horticultural Society for several years past.

**Phlox, Admiral da Lenois**, white, deep violet centre.
**Alexandrine Bellet de Verene**, deep crimson, dark eye.
**Alfred Tenbyson**.
**Alphonse Karr**, deep crimson, fine spike.
**Aurelia Eurey**, white, deep violet eye.
**Aurantia Superba**, rich vermilion.
**Aurora Borealis**, deep clear rose.
**Boule de Feu**, rosy crimson, a charming variety.
**Commandant Riviere**, rose, changing to violet.
**Congo**, immense panicles, white, centre lilac.
**Comte de Lamberthay**, deep crimson, dark eye.
**Changy**, lilac-rose, very fine.
**Chas. Dickens**, grand panicle, rosy crimson.
**Comtesse de Berricourt**, white, violet eye.
**Crystal Palace**.
**Deliverance**, dark rose, carmine centre.
**De Lesseps**, enormous flowers, rosy mauve.
**Ernst Benary**, rose, crimson eye.
**Etoile du Neuvilly**, striped purple and white.
**Eugenie la Brasseur**, purplish crimson.
**Gloria**, lavender, violet eye.
**Fonveille Henrica**, rosy crimson.
**Jean Bart**, crimson-scarlet, violet eye.
**Judith**, white, violet eye.
**Josephine Gerbeaux**, carmine, bordered white.
**La Candeur**, pure white, grand panicle.
**L'Avenir**, dark crimson, deep eye.
**Louis Chate**.
**Lucile Genin**, large panicles of the purest white.
**Lemoine**.
**M. Buls**, fine panicles of rose with deeper eye.
**M. Vulpain**, violet-rose, crimson eye.
**M. Helye (d)**, large panicles, carmine, purple.

**Phlox, Mad. Hoste**, pure white, large.
**Madame la Comtesse de Malart**, white, red centre.
**Madame Lacerf**, clear paper white.
**Madame Marsat,**(d), light crimson, dark eye.
**Madame Sear**, white, violet eye.
**M. Martin**, soffierino, centre purple.
**Mr. Robine**, bright crimson, superb.
**Madame Levrat**, light carmine, dark centre.
**Madame Autin**, deep vermilion, fine spike.
**Monsieur William Bull**, lilac-rose, very large.
**Monsieur Veitch**, fine purple.
**Monsieur Muret de Bont**, dark rich crimson.
**Mr. Delamere**, light crimson, dark eye.
**Mr. Bonneau**, purplish-crimson, fine spike.
**Monsieur Dommage**, white, crimson eye.
**Mad. Moisset**, rose, crimson centre, large flower.
**Monsieur Gigre**, red-scarlet, dark eye.
**Mad. la Comtesse de Turenne**, white, purple centre.
**M. Pasteur (new)**, grand panicle, violet.
**Midas**.
**Panama**, purple and white.
**Pearl**, fine panicle, purest white.
**Queen of Whites**, purest white, grand panicles of white flowers.
**Roi de Pourpres**, crimson-purple, extra.
**Sanspareil**, snow-white, large rose centre.
**Souvenir de Ma Mere**, white, violet centre.
**Surpasse Marie Bellanger**, rosy-crimson, dark eye.
**Surpasse Mad. Fontaine**, very beautiful, white.
**Sellier, grand panicles, pure white, centre rose.
**Venus**, pure white, fine spike.
**White Lady**, large panicles of pure white flowers.
**Zebra**, white, striped claret.

Price 15 cents each; $1.50 per dozen (save where priced).

PERENNIAL PHLOXES.—(Phlox Suffruticosa).

The following are dwarf in habit, belonging to the Suffruticosa section. We can, with the greatest confidence, recommend these to all lovers of this class of plants. The heads of blooms are immense, whilst the delicacy of the marking is most beautiful.

**Phlox, Agar**, a beautiful pure white, fine panicle.
**Angele**, flowers large, pure white.
**Arago**, rose, edges white, centre carmine.
**Argy-Sachs**, violet-mauve, deep centre.
**Attraction**, grand panicles, light purple, centre dark.
**Argus**, venus-red, deep centre.
**Bouquet d'Argent**, large panicles, pure white, violet centre.
**Chas. Wagner**, purplish-magenta.
**Carot**, panicles of pure white.
**Comtesse de Castris**, grand panicles, violet-carmin, extra fine.

**Phlox, Champs-Elysees**, large panicle, violet-purple, extra.
**Crystal Palace**, white, crimson eye.
**Croix d'Honneur**, immense spikes, each petal being distinctly and effectively margined with white, thus giving the flower the appearance of a cross.
**Duchesse de Athole**, pure white, large crimson eye, large and fine.
**De Fonteville**, grand panicle, creamy white.
**Edgar Quinet**, grand panicle, rose-amaranth, light centre.
**Essaiis Tegner**, magnificent rose, purple centre.
Phlox, *Enfant du Rhone*, pure white.
Glori *Vicris*, rose-lilac, centre carmine, enormous flower.
Louise *Schwartz*, pure white, fine.
Lucie *Lemoine*, fine white, large spike.
La *Fraicheur*, pure white.
La *Reve*, deep rose, striped with white, beautiful.
Mad. *Devert*, delicate pink, carmine eye.
Mad. *Crozy*, crimson, dark eye.
M. Ch. *Marc*, white, violet eye.
Mlle. *M. Cuppenheim*, purest white, fine panache.

Price 15 cents each; $1.00 per dozen.

*NEW HERBACEOUS PÆONIES.*

The following can be recommended as the most beautiful of the new varieties.

**PAEONIES.—General Collection.**

**CLASS I.**

Our Gladiolus were awarded a premium at the Cincinnati Industrial Exposition. The varieties in this class are well-tested sorts, and such as we can supply at moderate prices. Sent by mail free, except when ordered by the dozen or hundred. All of my own growth.

| Gladiolus, *Agatha*, rose suffused with lake, carmine-arachranth, yellow spots | 10 |
| Alcyon, white, largely bordered and flamed, rose-carmine | 25 |

| Amabilis, bright vermillion stained with yellow | 10 |
| Alexander, intense crimson scarlet | 10 |
| Argus, dazzling fiery red centre and lower petals white | 10 |
| Amalthee, pure white velvety blotch | 10 |
| Antonius, scarlet, tinged with orange, white blotch | 10 |
| Angele, white, showy and effective | 10 |
| Archimedes, light red, lower petals buff, striped carmine | 10 |
| Aranea, white ground, tinged with rose lilac | 20 |

| Gladiolus, *Adonis*, light cherry carmine blotch | 10 |
| Aristotle, flesh color spotted red, lower petals carmine | 10 |
| Achille, currant red, striped with white | 15 |
| Andromeda, rose tinted with carmine and streaked with white; yellow blotch | 30 |
| Asmodee, brilliant cherry purple, edged and blazed garnet, with white stains | 15 |
| Archangel, Marie Christine, white slightly tinged with lilac, blazed carmine | 25 |
| Arsinoe, fine satin rose, blazed with bright carmine | 10 |
| Astrea, pure white with distinct violet-carmine blotch, throat suffused with pale lilac | 20 |
| Beatrix, pure white ground, delicately flushed with carmine | 25 |
| Benvenute, brilliant orange-red, white blotch | 10 |

*SELECTION OF THE FINEST HERBACEOUS PÆONIES.*

The following are among the finest novelties in this class, which have recently appeared in Belgium.

**PÆONIES, Alba Sulphurea**, exterior of petals pure white, centre cream color, very double.
**Comte de Cussy**, exterior petals clear purple, centre petals white, tinted with carnation.
**Edmund Lebon**, bright rose, large and full, an extra fine flower.
**Faust**, exterior petal deep flesh, centre creamy white, very beautiful.
**Faubert**, reddish-purple, almost black, double, a superb flower.
**Madonna**, pure white centre, lightly tinted with salmon.
**Mauriac**, deep flesh color, with cream centre.
**Marie Dhour**, deep carnation, very double, a splendid flower.
**Mad. Crouis**, pure white, large and double, a lovely flower.
**Magnifica**, white slightly tinged with rose, a grand flower, superb.

Price 30 cents each; $3.00 per dozen. Very fine varieties, my selection, 25 cents each; $2.00 per dozen.

### LILILUM AURATUM.

Tenuifolium, brilliant scarlet a very distinct and pretty Lily.

Testaceum (or Excelsum), stem four to five feet high, flowers light yellow, fragrant, hardy, a fine Lily.

Thunbergianum (or Elegans), stem about two feet high, flowers orange-scarlet with black spots.

Alice Wilson, pure yellow, a rare and very fine variety.

Atropurpurea, dark purple, spotted.

Flora Pleno, double.

Bilirutatum, yellow, spotted with black.

Feukwam, new.

Grandiflorum, very dark and rich.

Kikak, nainkin, spotted dark purple.

Venustam, stem about two feet, flowers bright orange, slightly spotted.

### LILILUM SPECIOSUM.

Each.

Lilium, Speciosum Punctatum, white, delicately spotted with rose.

Speciosum (Lanciflorum) Album, white flowers.

Melpomene, this fine variety is richer in color than any of the varieties of Speciosum.

Lilium, Speciosum Roseum Verum.

Purpuratum, deep rich color.

Rubrum Verum, very fine deep color, beautiful.

Schrymakersii, very rich deep crimson.

Superbum, stem four to six feet high, orange spotted with purple, having a grand panicle of 20 to 40 flowers.

Tigrum (Tiger Lily), stem four feet high, flowers brilliant orange-red, spotted with black, very showy.

Flora Pleno, a double variety of the last, exceedingly beautiful and attractive.

Splendens, a grand variety, grows four to five feet high, very robust in growth, with larger flowers, more brilliant and more heavily spotted than the species; magnificent.

*Amaryllis, Dr. Masters*, it is very free, and flowers in a very small state. The flowers of this fine variety are about half an inch in diameter, the sepals and petals are broad and of fine form and substance; the color of the petals is bright carmine-scarlet, shaded towards the base with purplish-crimson. This variety has the peculiarity of being totally devoid of green in the interior of the flower. One of the finest ever sent out.

NEW AND SCARCE CANNAS

Canna, President Faivre, foliage splendid, bronze-maron, large crimson flowers. 

Bulb Excess, foliage large, shaded purple, flowers orange-red.

Creole, very dark foliage, grows about six feet high, a fine variety. 

Glorie de Provence, foliage large, fine plant, flowers canary-yellow.

Henri Vilmorin, large dark green leaves, brilliant orange blossoms. 

Luke A. Lemoine, "a dark rich crimson-maroon, growing only three feet high, one of the darkest and finest. 40 cts. 

Eheemann (see Novelties).

Price 15 cents each; $1.00 per dozen (save where priced). My selection 10 cents each; $1.00 per dozen.

SUMMER VINES OR CLIMBERS.

Antigoton Leptus, a beautiful plant of climbing habit, with numerous racemes of rose-colored flowers, showing a still richer tint in the center. The profusion of its bloom is such as to give the resemblance of Roses at a distance, hence one of the Mexican names is "Rosa de Montana," or Mountain Rose. 

Cobea Scandens, a very rapid growing vine, flowers purple. 

Clitoria Alba, a pretty white variety. 

Cleome Sanguinea, a beautiful plant of vigorous growth, which flowers freely during summer; flowers in clusters of deep crimson red, and shaped flowers. 

Mon Fleur (Impouga Noc-tiphon or Calliancithys Grandiflora), an exceedingly vigorous grower, which opens during the month of July. 

Iponima Insignis, crimson flowers, excellent for planting out during summer. 

Michauxii, rose crimson. 

Nortonii. 

Schottii. 

GREENHOUSE VINES OR CLIMBERS.

Allamanda Hendersonii or Wardleiana, a distinct and beautiful species which blooms quite small and continues flowering nearly the whole year; the flowers are circular, of great substance, color of a rich deep yellow, fine habit. 

Each. 

Ismene Calathina, large umbsles of white flowers, 

Ixiolirion Palatii, 

Lilly of the Valley, single white. 

Double white. 

Single white, slightly tinged. 15. 

Montbretia Crocosmiiflora, an exceedingly beautiful bulbose plant, a hybrid between Montbretia Pottali and Crocosmia Aurea, flowers in clusters like a Gladiolus, color brilliant orange and crimson. $1.50 per doz. 

Pottali, a bulbose rooted plant from the Cape, requires similar treatment to Gladiolus, stem 13^ to 2 feet high, with a panicle of 8 inches long, bearing long, deep, bright yellow flowers, tinted outside with red. $1.50 per doz. 

Nolina (Guerney Idies), crispa, rose. .

Flexuosa, rose colored. 

Sarniensis, beautiful rose crimson. 

Corusa, scarlet. 

Potergrillii, orange scarlet. 

Ornithogalum thyridoides alba, long spires of white flowers 

Arabicum, a grand spike of pure white flowers, mag. 

Oxalis Cernua, canary yellow, finest yellow. 

Pleno, double, canary yellow. 

Pancratium Mexicanum, flowers large, pure white. 

Illyricum, this bears immense heads of pure white fragrant flowers; perfect hardy. 

Phradanassa Chloraceae, flowers are about six inches long on a pendulous umbel, crimson and green. 

Schizostylis Coccinea, a very fine hardy greenhouse bulb, blooms during autumn and winter. 

Tigridia (Tiger or Shell Flower) pavonia, orange-red spotted black. .

Cella Alba, blue. 

Conchifera, orange. 

Grandiflora alba, flowers white, with brown blotches in center, very handsome. $1.00 per doz. 

Tritoma (Flame Scabious Flower) Grandis, a handsome plant with spikes of flowers three feet high, color orange-scarlet, $1.50 per doz. 

Uvaria, long spikes, color orange-scarlet. 

Tritonia Aurea (Crocosmia), golden blooms, in tall branching spikes, $1.00 per doz. 

Crocarta, orange-scarlet flowers, fine. 

Tube Rose (double), first quality bulb, 60 per doz. 

Pearl, a variety of dwarf growth, eighteen to twenty-four inches, with larger flowers than the common. .

Urcelinia Aurea (pendula), an exceedingly beautiful bulbose plant from Peru. Dropping umbels of urn-shaped flowers, strangely colored with peegreen and golden yellow. Extremely graceful in growth and beautiful in color. Requires a warm atmosphere. 

Virtuosi Purpures, flowers brilliant shaded, cup-shaped. 

Major, a large variety of the last. 

Zephyranthes Atamasco (Atamascou Lily), a pretty dwarf Amaryllis-like plant, with large white flowers. 

Rosea, very pure. 

Treatress, in the style of Atamasco, flowers large, white. 

Each.

Canna, Musaefolia Sanguinea, musklike leaves ribbed, of a rich bronze or chocolate and crimson tint. 

Gladiolus Flora (new). 40 cts. 

Marchal Vaillant, orange flowers, large leaves of a dark bronze-crimson. 

Ornament du Grand Rond, very tall with large bronzy-green foliage, flowers scarlet. 

Oriflame, leaves green, with violet veils, salmon-orange flowers. 

Prince Imperial, large beautiful foliage. 

Preludes de Nieces, medium height, fine green leaves, flowers scarlet. 

V. Lemoine, fine broad green foliage, flowers orange-scarlet.
Of New, Rare and Beautiful Plants.

Acalypha, Cathartica, fine rich yellow, free...
Nobilis, a distinct and beautiful new species, flowers a deep purple, a large fine variety of A. Hendersonii, of a pure rich yellow, but which are greatly superior to others in cultivation, their large firm lobes being more widely imbri- cated, free...
Nerifolia, flowers smaller but most profuse, yellow...
Bougainvillea Glabra, this is the classic and bloomer of the genus, color a rosy-pink....

OF NEW, RARE AND BEAUTIFUL PLANTS.

Peperomia Argyreza, Dwarf growing plants, 15
Magnololia, leaves are desirable for baskets, 15
Verbasces are desirable, being bright green along the line of the nerves... 25
Plumbago Capensis, we have no plant of the same color to approach this for summer bedding. Plants bedded out in May will continue flowering through the summer; color a delicate azure blue. The plants can be kept in a cold frame during the winter with yellow discs... 25
Larėnse, like the last, this blooms through the summer, color bluish-purple, quite hardy... 15
Rosa, flowers rose color, fine for bedding or winter bloomings... 25
Primula Sinensis Fimbriata, fine seedling plants raised from the finest strains of single flowers, 30
Rhodea Japonica, leaves green, edged with yellow... 30
Rogiea Amanza... 30
Gratissima (new) Winter flowering plants, as fragrant as the Heliotrope... 30
*Rhododendron formosum, a fine Indian species, flowers white... 100
Rondeletia Speciosa Major, a very beautiful stave plant, flowers scarlet, very fine... 50
Russellia Juncea, pretty basket plant, scarlet flowers... 15
Ruellia formosa, a free winter blooming plant, with scarlet flowers... 15
Sancheria Nobilis Variegata, leaves of most intense green, the veins being broadly margined with golden-yellow... 25
Strélitizia Augusta, a very beautiful plant for the greenhouse, seedlings in 4-inch pots... 100
A few large plants 3 to 4 feet...
Streptosolen Jamesonii, an exceedingly fine free flowering plant of compact bushy habit, flowers opening bright orange, passing to crimson-red, nearly an inch in diameter. A really valuable plant... 25
Syngonium Albo-lineatum, a pretty variegated creeping plant... 30

MISCELLANEOUS BEDDING PLANTS.

Abutions... 10
Acalyphas, in sorts... 15
Agatha Colesiei, "blue Marguerite;" flowers daisy-like, with yellow blue, this is one of the best beds out well and flowers freely during winter, 25
Alyssum Sweet, double flowered... 10
Antichrosimos Spinosa, very choice, very free flowering, blooming along seedling, having long showy spikes of flowers. They are of the easiest culture, growing and flowering freely in any soil. A very choice selection... 10
Seedlings from finest strain, $1.00 per dozen... 10
Ageratum Blanch, very pure white... 10
Blue Tom Thumb, blue... 10
Cope's Gem, rich porcelain white... 10
John Douglas, dwarf habit, flowers large, azure, 10
White Cap, color white... 10
White Tom Thumb, white... 10
Aloysia Citriodora, lemon Verbena... 15
Asclepias Curassavica... 20
Alternanthera... 10
Aurea Variegata, a dwarf, of a habit, a beautiful golden yellow without a tinge of red... 10
Amoena, magenta colored... 10
Amaranthus, crimson colored... 10
Brilliantissima... 10
Magnifica, very robust in growth... 10
Passionflowers, bronzed, tipped with red... 10
Aurca, golden... 10
Spectabilis Versicolor Nana, a distinct new variety... 10
Tricolor, rose color... 10
Best varieties for edging in May, $3.00 per 100... 25
Browallia Elata Coerulea Major, a plant of compact growth, with rich blue flowers, fine for bedding or winter bloomings... 10
Caladium Esculentum... 10
Centarea Gymnocarpa, leaves of a downy white, forming an admirable contrast with Coleus and other foliage plants. $1.50 per dozen... 10
Argenta Plumbosa, this variety has elegant silvery surfaced leaves, long and Fern-like. $1.00 per dozen... 10
Babylonica, foliage silvery... 10
Candissimata, fine white foliage. $1.00 per dozen... 10
Clementei, of robust growth, rosette-like leaf clusters from the base, with white serrated leaves. $1.00 per dozen... 10
Celosia Clarilk, a pretty Celosia, beds out well, and is also a good winter flowering plant... 20
Cineraria Maritima, silvery foliage... 10
Maritima Candissimata, foliage and branches pure silvery white. 75 cts. per dozen... 10
Cuphea Platycerata, pretty for bedding out... 10
Hyssopifolia, dwarf, compact, flowers bright lilac... 10
Echeveria Secundula Glauca, of a beautiful glaucous hue... 10
Metallica, large leaves of a rich metallic hue... 10
Mexicanum... 10
Retusa... 15
Sanguinea... 10
Sanguinea, very fine, large size, to the House Leek... 10
Euphorbia Sanguinea... 15
Atropurpurea... 20
Graphealum Tomentosum, silver leaves, fine for bedding... 10
Iresine (or Achyranthus) Lindeni, leaves blood red... 10
Aurca Reticulata, crimson reticulated with gold... 10
Acuminata, crimson leaves... 10
Brilliantissima, stems and foliage exceedingly brilliant... 10
Collensii, narrow leaves, veined carmine and yellow, bright coral stems... 10

P E P E R O M I A.
HERBACEOUS PERENNIAL PLANTS.

Achillea ptarmica plena, flowers double white. 20
Anemone Japonica Alba (Honorine Jobert), makes a splendid bed for autumn flowering, large white flowers. 20
Japonica Rubra, the crimson variety. A fine autumnal flowerer. 20
Vitifolia, a very white flowering species. 20
Narcissiflora, a beautiful dwarf flowering plant. 20
Palmata, a very distinct species. 20
Patens, the finest blue. 20
Robinsoniana, large blue. 20
Rhododendron, a lovely dwarf flowering plant. 20

Aquilegia Chrysanthas, its large golden yellow long spurred flowers are produced in great abundance. 20
Chrysanthas Coerulea, a variety of the last, with blue flowers. 20
Californica, a species of recent introduction. 20
Very beautiful. 20
Wittmania, this is a remarkably fine new species, with large purple-blue flowers. 20
Glandulosa, blue, a superb species. 20
Coerulea, a very fine blue Columbine from the Rocky Mountains. 20
Skierni. 20
Alba, white. 20
Olympica, large purplish-blue; very showy. 20
Caryophyllides, striped. 20
Vulgaris, common. 20
Asian Bifoliolata, a very beautiful blue Aster from Texas, one of the latest autumn flowering plants. 20
Horizontalis, red and white flowers. 20
Linearis, white, rich blue, or white shading to purple. 20
Ericoides, white, with yellow centre. 20
Longifoia Formosa, a handsome Aster. 20
Formosum, white. 20
Charmosyna, white. 20
Laevis, bright blue. 20
Novae Belgica, large crimson. 20
Turbinellus, pale rose purple. 20
Versicolor, white, shading to rose-purple. 20
Novae Angliae, flowers bright red. 20
Undulata, deep lavender blue. 20
Bocconia frutescens (Mayna) Cordata, lovely and fragrant foliage. 20
Callirhoe Involuta, trailing habit, crimson flowers. 20
Cassia Fistula, a handsome specimen. 20
Chelone obliqua, alba, creamy white. 20
Barbata, spikes, scarlet flowers. 20
Glabra purpurea, fine purple flowers. 20
Lotus Jacobaeus, a pretty plant with pea-shaped flowers, white. 20
Pansy or Heartsease, Pan Blue, from large show flowers. 20
From finest fancy varieties. 20
Hybridum Astra, this is the one to look for, the well-defined markings of the Pansy. 20
Ruellia Formosa, flowers scarlet. 20
Salvia, a fine flowerer. 20
Amabilis, violet, shaded porcelain blue and white. 20
Gordonia, white. 20
Leucanthemum, blue. 20
Splendens, scarlet sage. 20
Alba (White Scarlet sage), flowers white. 20
Heirlooms, a fine flowerer. 20
Patens, the finest blue. 20
Vinca Rosea, pretty shrubby plant with rose-colored flowers. 20
Albiflora, white flowers. 20
Occulata, white, with crimson eye. 20
There are no beddng plants that can equal these in value and beauty.
OF NEW, RARE AND BEAUTIFUL PLANTS.

Each.

Funkia, Uudulata variegata, the variegation is nearly white all through the spring. Very attractive...

25

Furagium Grande, hardy plant with variegated foliage...

25

Feverfew, Prince Arthur. Best double white. $1 per ounce; very double white. 

10

Little Gem, new dwarf Feverfew.

20

Galera Corpulus, Alba...

20

Pretty hardly perennials.

Gaura Lindheimeri, long slender stalks of white flowers with pink spots, blooms all through summer.

25

Multiflorus maximus (the great Perennial Sunflower), an enormous growing variety, six to seven feet, producing immense golden flowers, almost as large as the annual species. This should be grown in every garden where sufficient space could be found for it. "Here is a plant for the million. Certainly it ought to be in every garden where flower borders are, for it is in our opinion the most beautiful of all Sunflowers."

50

Helianthus tuberosus, Alba, double white.

20

Maxima, large flowered...

25

Hemorrhcolis Thunbergii, a fine new species for cold borders.

25

Distichia pleno, a double flowered variety of this fine old perennial; flowers of an orange yellow. After growing this superb plant several seasons, I can recommend it as one of the most beautiful as well as one of the most valuable hardy herbaceous plants.

25

Kuruma, cv. Variegata, 1½ ft., leaves, broadly striped with white; in addition to which it produces very large double copper-colored flowers.

25

Hibiscus, Alba, variegated, quite a useful and large flowered with large magnificent deep crimson flowers.

25

Hollyhocks, seedlings, fine mixed, 25¢ per doz.

10

Iberis Glaucous, a beautiful plant flowers pure white in profusion.

15

Sempervivens (Evergreen Cactus). 15

15

Circaea, Astragalus, white, fine head, pure white flowers, fine for florists.

15

Iberica, a dwarf species, pretty.

15

Tenoreana, another fine variety, flowers white, Prefers a screen of shrubs, which are covered with snow-white blooms in the early spring months, hardy and of the easiest culture.

15

Iris Setosa, flowers blue and purple...

25

Susiana Cherioides, flowers valued a perennial with black.

20

Iberica, grey veined with black brown...

50

Pumila, a pretty dwarf Iri...15

15

Gigantea, a magnificent large species.

50

Kempferii (Species), white, marbled with purple. $2.40 per dozen.

10

Alex. Von Humbold, flowers large, snow-white, a fine variety...

25

Alex. Von Seibold, flowers large and showy, brownish-black, striped with orange.

25

Ducanii, beautiful flowered, single and variegated, crimson, fine.

25

Gloire de Rotterdam, flowers large, double white, fine.

25

Le Soeur, dwarf, lavender blue, very dark purple-blue, light-striped, semi-double.

25

Rutherford Alcock, fine violet-crimson with gold veined eye and blue belt.

25

Palid, Daint, large, lavender, flowers very large and fine.

25

Lathyrus Latifolius (Everlasting Pea), rose-colored, double flowers, one of the very finest varieties for the flower border.

75

Alba, a fine white variety...

25

A most useful flower for florists.

10

Linum Perenne, blue...

10

Lysimachia pulmonaria, a favorite from Japan, flowers white, quite hardy...

20

Vulgaris, golden locks...

20

Nummularia, pretty trailing plant...

20

Lily of the Valley, single white...

10

Double White...

15

Rose, nearly white, right lovely...

15

Fulgens, bronzy-purple foliage and crimson flowers. In very poor soil the bronzy-purple foliage of this yields to none in the brilliance of its flowers. It attains to a height of three feet or more, and is strikingly beautiful.

20

Queen Victoria, fiery scarlet flowers, very fine plants...

30

Splendens (Nevada), very fine scarlet...

25

S. purpureum, very fine Hybrids...

25

Among perennial plants, there are none more beautiful than these fine Lobelias.

50

Lychnis Chalcedonica plena, double scarlet, a rare and good plant...

50

Viscaria splendens plena, a very distinct and beautiful variety. The flowers are large and double, of a bright fery rose. It is perfectly hardy, very free-blooming, and one of the best and most useful perennials...

50

Monarda didyma, flowers scarlet...

20

Pulvillo, purple-crimson...

20

Myosotis (Forget-Me-Not)...

20

Alpestris Alba...

10

Pulstruous, azure-blue...

10

Onothera Frazierii, flowers freely, bright yellow, very beautiful...

10

Speciosa, flowers white, showy...

25

Jamesii, strong grower, large yellow flowers...

20

Pulstrous (Speciosa), flowers bright red...

25

Pardanthus sardinianus, its black seeds, in the form of a fruit of blackberry, remaining all the winter on the plant, has caused this plant to be called the Blackberry Lily...

10

Plumbago Larpentii, deep blue...

20

Polyanthus, Rose-in-Hose...

20

Penstemon Torreyii...

20

Barbata Cocinea...

25

Cobea, coba flowered, grown for seed, practically hardy, with rose spikes of scarlet flowers...

20

Grandiflora, a hardy perennial, with long spikes of light purple flowers...

20

Centranthofila, scarlet flowered...

20

Pubescent, lavender-bine...

20

Purpurea, deep purple...

20

Phlox, Nashville...

15

Wargena...

15

Subulata...

15

Alba...

15

*§5 COLLECTION.

Half the $10 collection.

*PLANTS FREE BY MAIL.

We have for some years forwarded plants in large numbers by mail to the most distant parts of the Union, as Texas, Utah and Pacific coast with perfect success. All of which are properly labelled and carefully packed in boxes or oiled paper. The following plants will be sent by mail, prepaid, our selection, at the prices annexed, or any new plant can be forwarded in the same way. No order for less than one dollar will be filled. This rule is necessary, as the mailing of one or two cheap plants will not compensate us, in the hurry of business, for the time and labor of packing, directing, pre-paying postage, etc.

Either of the following collections free by mail, for $1.00.

10 Achyranthus, assorted.
10 Alternantheras, assorted.
6 Amelopopsis.
8 Aquilegias, assorted.
10 Ageratum, "

We will send six of the above collections for $5.00. Fourteen for $10.00.
All plants suitable for mailing at Catalogue rates. Not less than one dollar's worth sent in one order. Premiums on all orders, and in proportion to amount ordered.

CLUB TERMS.

We offer as an inducement to those willing to get up a Club, the following reductions from Catalogue prices:

On a club order to amount to $ 5.00, you may select Plants or Bulbs to amount to $ 5.50.

" " " 19.00, " 15.00, " 12.00, " 12.00, " 18.00, "
" " " 20.00, " 20.00, " 20.00, " 20.00, "

The plants intended for each person will be selected and made into separate parcels, and all mailed or shipped to one address. These discounts apply to Catalogue 5 and 6 only, and don't embrace plants marked * or low priced lists.

Demorest's Illustrated Monthly.

THE MODEL PARLOR MAGAZINE OF THE WORLD, COMBINING
THE ESSENTIALS OF ALL OTHERS.

The increasing popularity of DEMOREST'S MONTHLY MAGAZINE, a popularity extending over twenty-five years, is ample proof that each succeeding year finds it improved in its vitality, beauty and attractiveness; thus meriting the enthusiastic encomiums bestowed upon it by its wide circle of intelligent and critical readers.

The peculiar features of this Magazine render it absolutely indispensable in the family circle. Its mission is to refine, elevate and instruct. Not only does it show how home can be beautified and adorned, but it points out the way by which the qualities of head and heart can be so cultivated that they will shed around the beneficent light of intellectual and moral beauty. Thus it is a safe family guide, a counsellor and friend for the young, while those older can find profit and pleasure in its pages.

So varied and instructive are its departments, combining as they do, Literature, Art, Architecture, Poetry, Floriculture, House and Home Matters, Work Table, Fashions, Editorials on Topics of the Day, Science at Home, Kitchen, Ladies' Club, Review of New Books, Common Topics, that it forms a valuable compendium of desirable and useful information for everybody.

Its Literary Department is richly stored with Serials, Shorter Tales, Biographical and Historical Sketches, Essays, Editorials, Poems, and Miscellaneous Articles, from the pens of the best writers of Europe and America; thus furnishing the most choice and popular literature of the day.

Its Artistic Department possesses unusual interest. Each number is profusely illustrated with a beautiful Art Picture in Oil, of rare delicacy of finish, or well executed Steel and other Engravings of celebrated pictures, by world-renowned artists of ancient and modern times, and Fashion Illustrations, which for beauty, variety and reliability are not equalled by those of any magazine in the world.

Its Scientific, Architectural, Floricultural, Household and Fashion Departments are equally full and attractive; the whole forming a Magazine which most admirably combines the useful and ornamental, the instructive and entertaining, and which for beauty, utility, originality and cheapness, is without a peer in the field that it occupies.

Each copy of DEMOREST'S MONTHLY MAGAZINE contains a Coupon Order entitling the holder to the selection of Any Pattern illustrated in any number of the Magazine, and in Any of the SIZES manufactured, making during the year Twelve Patterns, valued at from 20 cents to 30 cents each.

This is a most liberal offer; and ladies are learning that, besides having the best Literary and Household Magazine that is published, they can save between $3.00 and $4.00 per year by subscribing for DEMOREST'S MONTHLY, which is acknowledged to be the best Family Magazine in the world. Many suppose DEMOREST'S MONTHLY to be a Fashion Magazine. This is a great mistake. It undoubtedly contains the finest Fashion Department of any Magazine published, but this is the case from the fact that great enterprise and experience are shown, so that each department is equal to a Magazine in itself. By subscribing for DEMOREST's you really get a dozen Magazines in one, and secure amusement and instruction for the whole family.

Yearly Subscription $2.00.
Single Copies (containing Pattern Coupon) 20 Cents.

W. JENNINGS DEMOREST, Publisher, 15 East 14th Street, N. Y.
For reliable information on all that pertains to fine gardening, I can heartily recommend to my customers THE AMERICAN GARDEN of New York, the publisher's prospectus for which is given below. I will receive and forward subscriptions for my patrons.—JOHN SAUL.

There are no Secrets of Success in Gardening and Fruit Culture

known to its writers, who are successful gardeners, florists, fruit growers, landscape gardeners, specialists and amateurs, which will not be told in this illustrated monthly magazine of the garden, orchard, house, lawn, farm and nature.

GREATLY IMPROVED IN EVERY WAY.

1872. THE AMERICAN GARDEN. 1888.

IN ORNAMENTAL GARDENING we will show how to make use of the simple means of Nature, as well as teach the more elaborate phases of Landscape Gardening.

ORCHIDS will have a special department, illustrated, written by E. S. Rand, Jr., of Brazil, W. A. Manda, Director of Harvard College Botanic Gardens, and others.

THE ROSE Department, illustrated, treats of Rose culture under glass and in open ground, for both amateurs and professional gardeners.

NEW OR RARE PLANTS will be described by W. A. Manda, of Harvard Botanic Gardens, William Falconer, and other noted specialists.

THE IRIS, THE LILY, JAPAN MAPLES, PELARGONIUM, and CARNATION, will be written of in special exhaustive articles by able specialists, with beautiful illustrations.

PROPAGATION will receive special attention by skilled cultivators, and include all classes of plants.

FRUIT CULTURE will have the work of practical growers and experimenters in all sections. Varieties, Diseases, Culture, Marketing, etc., will be written by Dr. T. H. Hoskins, T. V. Munson, Prof. J. L. Budd, Charles A. Green, E. Williams, L. H. Bailey, Col. F. D. Curtis, A. A. Crozier, D. B. Wier, and many others.

VEGETABLES. An exhaustive series by E. S. Goff, of N. Y. Experiment Station, will describe the cultivated varieties, weeding out duplicates and worthless sorts without fear or favor. Vegetable gardening will have extensive and practical treatment.

WINDOW GARDENING, which so often tries the hearts and nerves of persistent flower lovers, will have as much light thrown upon its mysteries as successful amateurs can shed from their experience.

CHARLES BARNARD, Supt. Chautauqua Town and Country Club, will describe his work in the culture of a village lot, of special value to professional men, mechanics and beginners.

THE HOUSE GARDEN deals with plant and floral decoration of house and table, floral fashions, proper use of orchard and garden products in canning, cookery, preserving, etc., etc., by "Shirley Dare," author of Anna Maria's Housekeeping.

GREENHOUSE construction and management will be discussed at length.

SCHOOL GARDENING will have continued careful attention.

PRICE ONLY $1.00 PER YEAR; SINGLE COPIES, 10 CENTS.

Add ONE DOLLAR to your order for Plants and Seeds, for this best of all helps in the Garden.

THE AMERICAN GARDEN FOR 1888.

Address, JOHN SAUL, WASHINGTON, D. C.
PREMIUMS

I was Awarded the following Premiums at the
Cincinnati Industrial Exposition.

SEPTEMBER, 1884—GLADIOLUS AND DAHLIAS.

And the following at a former Exposition:

FIRST PREMIUM—"Best Group of Crotons."
FIRST PREMIUM—"Best Single Specimen of Croton."
FIRST PREMIUM—"Best Group of Dracænas."
FIRST PREMIUM—"Best Group of Marantas."
FIRST PREMIUM—"Best Single Specimen of Maranta."
FIRST PREMIUM—"Best Single Specimen of Dieffenbachia."
SECOND PREMIUM—"Second Best Group of Variegated Foliage Plants."
FIRST PREMIUM—"Best Single Specimen of Variegated Foliage Plant."

SPECIAL PREMIUM—"For Davallia Mooreana."

I have also been Awarded for several years, leading Premiums by the Maryland Horticultural Society and District of Columbia Horticultural Society for Dracænas, Crotons, Foliage Plants, Stove and Greenhouse Plants, Ferns, &c. In Cut Flowers, for Dahlias, Roses, Phloxes, Herbaceous Plants, &c.

At the National Fair Association, Washington, D. C., I have also been Awarded the leading Premiums.
SEAFORTHIA ELEGANS.

This is a most graceful Palm, eminently adapted for the decoration of the greenhouse and garden. It also makes a fine window plant; leaves are very long and gracefully arched, dark green, the whole plant perfectly smooth; a grand decorative plant.

Price per Plant, 50 cts., $1.00 to $3.50.
